Reenacting The Artista Story Of The Ampico Reproducing Piano:

Re-enacting the Artist Larry Givens, 1970 **Off the Record** Neal Peres da Costa, 2012-05-16 In *Off the Record* author and pianist Neal Peres Da Costa explores Romantic era performance practices through a range of early sound recordings acoustic piano roll and electric that capture a generation of highly esteemed pianists trained as far back as the mid nineteenth century

Lost Genius Kevin Bazzana, 2009-02-24 The award winning author of *Wondrous Strange* the critically acclaimed biography of Glenn Gould explores the bizarre untold life of another brilliant and eccentric musician The composer Arnold Schoenberg called him an utterly extraordinary pianist of incredible originality and conviction yet today he is all but forgotten Born in Budapest in 1903 Ervin Nyiregyh zi nyeer edge hah zee was a remarkable prodigy at eight he performed at Buckingham Palace and when he was thirteen a psychologist published a book about him In his teens his idiosyncratic intensely Romantic playing electrified audiences and astounded critics in Europe and America But his adult career quickly foundered and he was reduced to penury In 1928 he settled in Los Angeles and eventually he withdrew from public life preferring to spend his time quietly composing Psychologically he remained a child and found the ordinary demands of daily life onerous he struggled even to dress himself He drank heavily was insatiable sexually he married ten times and described himself as a fortissimo bastard yet such was his talent and charisma that he numbered among his friends and champions celebrities such as Jack Dempsey Theodore Dreiser Bela Lugosi and Gloria Swanson Rediscovered in the 1970s he enjoyed a brief sensational and controversial renaissance before slipping back into obscurity He died in 1987 *Lost Genius* the product of ten years research is the first biography of Nyiregyh zi whose story is among the most fascinating and bizarre in twentieth century music

The Restless Clock Jessica Riskin, 2016-03-10 A wide ranging

witty and astonishingly learned scientific and cultural history of the concept of the capacity to act in nature London Review of Books Today a scientific explanation is not meant to ascribe agency to natural phenomena we would not say a rock falls because it seeks the center of the earth Even for living things in the natural sciences and often in the social sciences the same is true A modern botanist would not say that plants pursue sunlight This has not always been the case nor perhaps was it inevitable Since the seventeenth century many thinkers have made agency in various forms central to science The Restless Clock examines the history of this principle banning agency in the life sciences It also tells the story of dissenters embracing the opposite idea that agency is essential to nature The story begins with the automata of early modern Europe as models for the new science of living things and traces questions of science and agency through Descartes Leibniz Lamarck and Darwin among many others Mechanist science Jessica Riskin shows had an associated theology the argument from design which found evidence for a designer in the mechanisms of nature Rejecting such appeals to a supernatural God the dissenters sought to naturalize agency rather than outsourcing it to a divine engineer Their model cast living things not as passive but as active self making machines The conflict between passive and active mechanist approaches maintains a subterranean life in current science shaping debates in fields such as evolutionary biology cognitive science and artificial intelligence This history promises not only to inform such debates but also our sense of the possibilities for what it means to engage in science and even what it means to be alive Praise for The Restless Clock A wonderful contribution and much needed corrective to the history of European ideas about life and matter Evelyn Fox Keller author of The Mirage of a Space between Nature and Nurture Engrossing and illuminating Nature A sweeping survey of the search for answers to the mystery of life Riskin writes with clarity and wit and the breadth of her scholarship is breathtaking Times Higher Education UK [Inventing Entertainment](#) Brian Dolan, 2009-01-16 Brian Dolan s social and cultural history of the music business in relation to the history of the player piano is a critical chapter in the story of contemporary life The player piano made the American music industry and American music itself modern For years Tin Pan Alley composers and performers labored over scores for quick ditties destined for the vaudeville circuit or librettos destined for the Broadway stage But the introduction of the player piano in the early 1900s transformed Tin Pan Alley s guild of composers performers and theater owners into a music industry The player piano with its perforated music rolls that told the pianos what key to strike changed musical performance because it made a musical piece standard repeatable and easy rather than something laboriously learned It also created a national audience because the music that was played in New Orleans or Kansas City could also be played in New York or Missoula as new music ragtime and dance fox trot styles crisscrossed the continent along with the player piano s music rolls By the 1920s only automobile sales exceeded the amount generated by player pianos and their music rolls Consigned today to the realm of collectors and technological arcane the player piano was a moving force in American music and American life [Catalog of Copyright Entries.
