Photography for Everyone Kerry Ross, 2015-06-24 The Japanese passion for photography is almost a cliché but how did it begin Although Japanese art photography has been widely studied this book is the first to demonstrate how photography became an everyday activity Japan's enthusiasm for photography emerged alongside a retail and consumer revolution that marketed products and activities that fit into a modern tasteful middle class lifestyle Kerry Ross examines the magazines and merchandise promoted to ordinary Japanese people in the early twentieth century that allowed Japanese consumers to participate in that lifestyle and gave them a powerful tool to define its contours Each chapter discusses a different facet of this phenomenon from the revolution in retail camera shops to the blizzard of socially constructive how to manuals and to the vocabulary of popular aesthetics that developed from enthusiasts sharing photos Ross looks at the quotidian activities that went into the entire picture making process activities not typically understood as photographic in nature such as shopping for a camera reading photography magazines and even preserving one's pictures in albums These very activities promoted and sponsored by the industry embedded the camera in everyday life as both a consumer object and a technology for understanding modernity making it the irresistible enterprise that Eastman encountered in his first visit to Japan in 1920 when he remarked that the Japanese people were almost as addicted to the Kodak habit as ourselves

Unburied Memories: The Politics of Bodies of Sacred Defense Martyrs in Iran Pedram Khosronejad, 2013-09-13 Today almost a generation has passed since the Iran Iraq war and the memory of it is set to diminish with each passing generation The following questions emerge Can we say that the gradual disappearance of war's memory means that increasingly Iranians will see the Iran Iraq war solely as an historical event How can we defend or reject this idea Today with which elements and values should we look at the Iran Iraq war memorials and ceremonies To what extent will war museums and materials culture be influenced by these new values In the period during and immediately after the Iran Iraq war 1980-88 national bereavement and commemoration of martyrs was neither apparent in common state policy nor a social need Even at the turn of the 21st century anyone walking through Iranian cities many of which had been the main scene of the bloody massacre and direct targets of the Iraqi Republican Guard will have found traces of the terrible almost

unimaginable human losses However today s Iranians can see modern war memorials and monuments in many parts of the urban and rural landscape Yet at the same time the changing landscape has separated Iranians from such remnants of the violence It can be argued that many people in their wish to look forward to a more hopeful future do not wish to be reminded of this period in Iranian history This book was originally published as a special issue of Visual Anthropology
