Reflections on Human Nature Arthur O. Lovejoy, 2020-02-03 Originally published in 1961 Arthur O Lovejoy beginning with his book *The Great Chain of Being* helped usher in the discipline of the History of Ideas in America In *Reflections on Human Nature* Lovejoy devotes particular attention to influential figures such as Hobbes Locke Bishop Butler and Mandeville tracing developments and changes in the concept of human nature through the seventeenth and eighteenth centuries He also discusses the theory of human nature held by the founders of the American Constitution giving special attention to James Madison and the Federalist Papers *Reflections on the nature and tendency of the present spirit of the times, in a letter* George Burges, 1819 **Reflections on the Nature and Tendency of the Present Spirit of the Times, in a Letter to the Freeholders of the County of Norfolk** George BURGESS (Vicar of Halvergate.), 1819 Essays ... and reflections on nature, men ... &c. represented in the Memoirs [&c.] Louis Sébastien Mercier, 1808 **The Infinite Nature of Man** Rolf A. F. Witzsche, 2003 *Experiential Consciousness and the Nature of Human Identity* Vitor Jose F. Rodrigues, 2022-12-13

Consciousness is hard to bring to the laboratory as it confronts us with a classic dilemma can a mind observe itself However who then is observing the observer Without experiential awareness culture the arts science and philosophy would not make sense Would it make sense if refrigerators were to produce a refrigerator culture without the experience of freezing food Virtually all human culture is destined to provide conscious experiences This volume provides a rich array of views on human nature and the way it shows up in the strange land of human identity **Reflections on Law and Armed Conflicts** Hilaire McCoubrey, Michael A. Meyer, 2023-12-11 This unique volume presents an edited selection of works upon the laws of armed conflict by the late Professor Colonel G I A D Draper OBE Professor Colonel Draper was a central figure in the analysis and dissemination of the humanitarian laws of armed conflict in the English speaking world He had a wide practical and academic experience of the subject including service as a prosecutor at the Nuremberg trials His work covered not only the contemporary substance of the law but also its moral ethical and political context the pressures upon its development and its potential for further positive and other development This edited collection presents a very significant part of Professor Colonel Draper s work including many pieces which are no longer readily accessible or have never before been published with modern commentary referring to developments which have occurred since his death The late Professor Colonel s work is an important scholarly contribution to the subject and also retains a very great degree of modern relevance including comment upon such issues as war crimes and appropriate responses to them The Editors present this collection as both an important scholarly and practical resource and a fitting tribute to one of the great twentieth century contributors to this area of law **Reflection on the Works of God in Nature and Providence, for every day in the year ...
