Reflections On Communication Education Scholarship And Life:

Reflections on Communication, Education, Scholarship, and Life Xin-An Lu, 2003-07-06 Our actions in education business and government are no longer guided by conscious ideals but by entrenched practices that are products of expediency indolence and even tyranny Inveterate and ubiquitous problems abound Students hate school Employees dislike their jobs Professors become disinclined toward teaching Boredom and procrastination are everywhere There are promotion requirements such as scholarly publications by college professors that promote nothing and benefit none except to move the person into the next nominal category along the spectrum of the organizational ladder We are plagued with senseless competitive patterns and numerical evaluations that make life a mere matter of rat race the winning of which does not uplift us into the sublimity of humanity but trammel us in the degradation of being rats Essays in this book reflect on and search for answers to widespread and inveterate problems that degenerate modern life into mere livelihood Products in sober solitude rather than in the societal cacophony most essays in the book were written during the author's doctoral studies [The Bloomsbury Handbook of the Cultural and Cognitive Aesthetics of Religion](#) Anne Koch, Katharina Wilkens, 2019-09-05 Bridging the gap between cognition and culture this handbook explores both social scientific and humanities approaches to understanding the physical processes of religious life tradition practice and belief It reflects the cultural turn within the study of religion and puts theory to the fore moving beyond traditional theological philosophical and ethnographic understandings of the aesthetics of religion Editors Anne Koch and Katharina Wilkens bring together research in cultural studies cognitive studies material religion religion and the arts and epistemology Questions of identity gender ethnicity and postcolonialism are discussed throughout Key topics include materiality embodiment performance popular vernacular art and space to move beyond a sensory understanding of aesthetics Emerging areas of research are covered including secular aesthetics and the aesthetic of spirits This is an important contribution to theory and method in the study of religion and is grounded in research that has been taking place in Europe over the past 20 years Case studies are drawn from around the world with contributions from scholars based in Europe the USA and Australia The book is illustrated with over 40 color images and features a foreword from Birgit Meyer **A Primer for the Clinician Educator** Larrie Greenberg, 2022-07-20 This concise introductory primer has been written specifically for clinician educators CEs particularly those new to the role and those working to further develop their experience and knowledge Drawing on his dual roles as a pediatrician and medical educationalist the author uses story telling and personal experience alongside practical tips and tricks to support the reader in their teaching patient care and educational scholarship helping both junior faculty and more senior educators to avoid pitfalls in all segments of their careers **Phronesis as Professional Knowledge** Elizabeth Anne Kinsella, Allan Pitman, 2012-07-30 Phronesis is the Aristotelian notion of practical wisdom In this collected series phronesis is explored as an alternate way of considering professional knowledge In the present context dominated by technical rationalities and

instrumentalist approaches a re examination of the concept of phronesis offers a fundamental re visioning of the educational aims in professional schools and continuing professional education programs This book originated from a conversation amongst an interdisciplinary group of scholars from education health philosophy and sociology who share concerns that something of fundamental importance of moral significance is missing from the vision of what it means to be a professional The contributors consider the ways in which phronesis offers a generative possibility for reconsidering the professional knowledge of practitioners The question at the centre of this inquiry is If we take phronesis seriously as an organising framework for professional knowledge what are the implications for professional education and practice A multiplicity of understandings emerge as to what is meant by phronesis and how it might be reinterpreted understood applied and extended in a world radically different to that of the progenitor of the term Aristotle For those concerned with professional life this is a conversation not to be missed

Reflections on Language Teacher Identity Research Gary Barkhuizen, 2016-11-10
Reflections on Language Teacher Identity Research is the first book to present understandings of language teacher identity LTI from a broad range of research fields Drawing on their personal research experience 41 contributors locate LTI within their area of expertise by considering their conceptual understanding of LTI and the methodological approaches used to investigate it The chapters are narrative in nature and take the form of guided reflections within a common chapter structure with authors embedding their discussions within biographical accounts of their professional lives and research work Authors weave discussions of LTI into their own research biographies employing a personal reflective style This book also looks to future directions in LTI research with suggestions for research topics and methodological approaches This is an ideal resource for students and researchers interested in language teacher identity as well as language teaching and research more generally
