Six Countries, Six Reform Models: The Healthcare Reform Experience Of Israel, The Netherlands, New Zealand, Singapore, Switzerland And Taiwan - Healthcare Reforms "Under The Radar Screen" Kieke G Okma, Iva Bolgiani, Tim Tenbenschel, Toni Ashton, Hans Maarse, Meng-kin Lim, Luca Crivelli, David Chinitz, Tsung-mei Cheng, Rachel Meislin, 2009-12-23 This book presents the healthcare reform experiences of six small to mid sized but dynamic economies spanning the Asia Pacific the Middle East and Europe Usually not given serious consideration in major international comparisons because of their small size each in fact provides a fascinating case study that illuminates the understanding of the dynamics of healthcare reform Although dissimilar in historical and cultural backgrounds they share some important features all faced very similar pressures for change in the 1970s and 1980s all considered a very similar range of policy options and all did not only discuss but actually implemented fundamental changes in their healthcare funding organization contracting and governance structures with strikingly different outcomes All of the authors have lived and worked in one or more of the countries studied in this volume The analytic frameworks they use reflect their broad range of professional and disciplinary backgrounds in health economics and political science Beyond mere descriptions of reform processes and superficial analyses based on aggregate data from the usual OECD or WHO sources they seek to understand and explain the variations in country experiences by examining the politico socio economic factors driving health reform as seen through the respective country lenses In coming together in this unique international collaboration they make an important contribution to the growing field of international comparative health policy studies Contributors Tsung Mei Cheng Princeton University USA David Chinitz The Hebrew University of Jerusalem Israel Luca Crivelli and Iva Bolgiani University
