Reforming The Military:

Reforming the Military Commissions Act of 2006 and Detainee Policy United States. Congress. House. Committee on Armed Services, 2010 Reforming the Military Jeffrey G. Barlow, 1981 **Military Reform** Winslow T. Wheeler, Lawrence J. Korb, 2009 By reference to the fundamental strengths and weaknesses of America's armed forces Wheeler and Korb establish a definition of what genuine military reform is and is not and identify what really needs to be done to transform our military They compare genuine reform with cosmetic dabbling that improves nothing and often burdens US combat forces to the point of mental and physical immobility They focus particularly on the reforms advocated by a small group in Congress and the Pentagon in the 1980s revealing how these reforms have fundamentally altered the ways in which the Department of Defense designs and buys hardware and how our armed forces fight The book uses Operations Desert Storm and Iraqi Freedom and the subsequent insurgency in Iraq to demonstrate what has been reformed in the US armed forces and the Department of Defense and what has not **Reforming Military Command Arrangements** Henrik Bliddal, 2011 Our national security system turns our overall capabilities into active assets protects us against the threats of an anarchic international system and makes it possible to exploit its opportunities Today however the system is arguably in dire need of reform Much remains in the dark about how the organizations that safeguard our national security are reformed because international circumstances change The author examines a crucial historical case of military reform the establishment of the Rapid Deployment Joint Task Force RDJTF the direct predecessor of Central Command He discusses how the U S military adapted to the emerging security challenges in the Persian Gulf in the late 1970s by recasting military command arrangements The RDJTF was one of the components of President Carter's Persian Gulf Security Framework which marked a critical strategic reorientation towards the region as a vital battleground in the global competition with the Soviet Union The author also suggests how national security reforms can be understood more generally In this way he lays out some of today's challenges that we must face in effectively restructuring our security and defense establishment Especially in these times of fiscal restraint a better grasp of institutional reform is very much needed Based upon original interviews with key civilians and military officers as well as extensive archival research including the analysis of material only recently declassified this monograph is the most complete account of the establishment of the RDJTF thus far **Getting it Right** James F. Dunnigan, Raymond M. Macedonia, 1993 Using the Army as a framework but including all branches of the service this is an insider's look at how major reforms in the US armed forces since Vietnam led to success in the Gulf War and improved changes for success in the future Dunnigan has appeared on Larry King Live NBC News Today and ABC Charts **Reforming Civil-Military Relations in New Democracies** Aurel Croissant, David Kuehn, 2017-03-20 This book addresses the challenge of reforming defense and military policy making in newly democratized nations By tracing the development of civil military relations in various new democracies from a comparative perspective it links two bodies of

scholarship that thus far have remained largely separate the study of emerging or failed civilian control over armed forces on the one hand and work on the roots and causes of military effectiveness to guarantee the protection and security of citizens on the other The empirical and theoretical findings presented here will appeal to scholars of civil military relations democratization and security issues as well as to defense policy makers

The Challenge of Military Reform in Postcommunist Europe A. Forster, T. Edmunds, 2002-10-23 This major comparative study examines the challenges faced by countries of postcommunist Europe in reforming and professionalizing their armed forces It explores how the interaction of the common challenges of postcommunism and the diverse circumstances of individual countries are shaping professionalization processes in this changing region The detailed country case studies in this volume written by leading experts to a common analytical framework compare the experiences of Poland the Czech Republic Slovakia Hungary Latvia Lithuania Romania Bulgaria Slovenia Croatia FRY Russia and Ukraine

Russian Military Reform Carolina Vendil Pallin, 2008-08-29 This book examines reform of the Russian military since the end of the Cold War It explores the legacy of the Soviet era explaining why at the time of the fall of the Soviet Union radical reform was long overdue in the wake of changing military technology new economic and political realities and the emergence of new threats and challenges It discusses the problems encountered by Gorbachev in his attempts to promote military reform in the late 1980s and goes on to analyse in detail the mixed fortunes of the policies of his successors Yeltsin and Putin It describes how the onset of war in Chechnya in 1994 provided clear evidence of the weaknesses of the Russian military in modern conflicts and shows that although the Chechnya debacle did provide some impetus for reforms in the armed forces in 1997-98 the momentum was not continued under the Putin government It argues that Putin's policies of bolstering central control over all aspects of decision making has left untouched many key problems facing the Russian military including infighting between different force structures lack of transparency and independent scrutiny over defence spending and absence of consensus on the main threats to Russia and optimum force posture Moreover it argues that in his attempts to concentrate all means of control to a corrupt and inefficient Kremlin bureaucracy Putin has deprived himself of all alternative channels of independent scrutiny control and oversight thus exacerbating the problems that continue to plague the Russian military

Getting It Right James F. Dunnigan, Raymond M. Macedonia, 2001-05-01 This is the second edition of a book about the dramatic reform of the American military between the end of the Vietnam war and the Persian Gulf war of 1990-91

Reforming the Tsar's Army David Schimmelpenninck van der Oye, Bruce W. Menning, 2004-03-18 This volume examines how Imperial Russia's armed forces sought to adapt to the challenges of modern warfare From Peter the Great to Nicholas II rulers always understood the need to maintain an army and navy capable of preserving the empire's great power status Yet they inevitably faced the dilemma of importing European military and technological innovations while keeping out political ideas that could challenge the autocracy's monopoly on power Within the context of a constant race to avoid oblivion the impulse for military renewal

emerges as a fundamental and recurring theme in modern Russian history
