Register Of William Melton Archbishop Of York 1317-1340 I:

The Register of William Melton, Archbishop of York, 1317-1340 David Robinson, Rosalind M. T. Hill, 1977 This volume continuing the series of great medieval bishops registers offers material valuable for both religious and social history The register of Archbishop William Melton is one of the largest and most comprehensive to survive Its backbone is the institution of clergy and licences to them papal provisions and ordination of vicars and chantries but it also contains a wealth of material for social history During the period it covers the East Riding of Yorkshire was flourishing and a number of entries in the register reflect the challenges which the newly founded town of Kingston upon Hull was causing for the existing parochial structure The archbishop is shown anathematizing malefactors who stole his swans and invaded his liberties in Beverley and the river Hull and demanding the return of stolen wool on behalf of a merchant whose ship had been wrecked in the river Humber The register also covers the origins of one of the last monasteries to be founded in medieval England Haltemprice and reveals the shortcomings of monks and nuns as well as secular clergy and members of the laity more widely many entries reflect the tensions between outlying villages and chapelries and their mother churches The text is presented here with introduction apparatus and notes which elucidate the entries David Robinson until his retirement County Archivist of Surrey was awarded his PhD from the University of Cambridge

Melton), 1977 Chivalry, Kingship and Crusade Timothy Guard, 2013 A fresh perspective on the Crusade shows its ideal and practice flourishing in the fourteenth century The central theme of this book is the largely untold story of English knighthood's ongoing obsession with the crusade fight during the age of Chaucer high chivalry and the famous battles of the Hundred Years War After combat in France and Scotland fighting crusades was the main and a widespread experience of English chivalry in the fourteenth century drawing in noblemen of the highest rank as well as knights chasing renown and the jobbing esquire The author exposes a thick seam of military engagement along the perimeters of Christendom details of participants and campaigns are chronicled in many cases for the first time and associated matters of tactics diplomacy organisation and recruitment are minutely analysed adding substantially to the historiography of the later crusades The book's second theme traces the surprisingly strong grip the crusade idea possessed at the height of politics as an animating force of English kingship Disputing the common assumption that crusade plans were increasingly ill treated by the monarchs adopted as diplomatic double speak or as a means of raiding church coffers the author argues that courtiers and knights moved in a rich environment of crusade speculation and ambition and exercised a strong influence on the culture of the time Timothy Guard gained his DPhil at Hertford College University of Oxford
