**Bellevue** Robin Cook, 2024-12-03 From the bestselling author and master of the medical thriller, *The New York Times* Robin Cook comes a new tale of suspense horror about a first-year resident whose life-shattering visions reveal the truth behind some of the greatest medical advances in the history of medicine. Twenty-three-year-old Michael Mitt Fuller starts his surgical residency with great anticipation at the nearly three-hundred-year-old iconic Bellevue Hospital, following in the footsteps of four previous celebrated Fuller generations. The pressure is on for this newly minted doctor, and to his advantage, he's always had a secret sixth sense, a sensitivity to the nonphysical. But quickly, one patient after another assigned to his care begins to die from mysterious causes. As he tries to juggle these inexplicable deaths with the demands of being a first-year resident, things rapidly spiral out of control. Visions begin to plague Mitt: visions of a little girl in a bloodstained dress, bloodcurdling screams in the distance, and worse. As bodies mount and Mitt's stress level rises, he finds himself drawn to the monumental, abandoned Bellevue Psychopathic Hospital building, which, to his astonishment, has somehow defied the wrecking ball and still stands a few doors north of the modern Bellevue Hospital high-rise. Forcing an unauthorized entry into this storied but foreboding structure, Mitt discovers he's more closely tied to the sins of the past than he ever thought possible.

**Coma** Robin Cook, 1977 Robin Cook is the author and *Coma* is the book for which the term medical thriller was first used. It's a spine-chilling shocker about a crime beyond imagining and the committed young medical student who brings it to light. The surgery was routine, the kind performed many times a day at Boston's most prestigious hospital. The teams that worked in OR #1 make up for what was happening around them. Several patients admitted to the hospital for minor surgery never awoke. For some inexplicable reason, their brains had been destroyed.

**Spasm** Robin Cook, 2025-12-09 From the master of the medical thriller, *The New York Times* Robin Cook fan favorites Jack and Laurie return in another fast-paced story about a deadly bioweapon that could disrupt the world order as they know it. When Laurie Montgomery temporarily steps down from her position as Chief Medical Examiner at the OCME to get a break from office politics, she and Jack decide to embark on a weekend getaway. And the timing couldn't be better when they receive a call from Jack's old peer, Robert Neilson, MD, about two strange deaths and their potential association with the upswing in Alzheimer's cases in Essex Falls. Deciding this is just what the doctor ordered, Laurie and Jack agree to help and head upstate. But Essex Falls is far from the rural idyllic town of their imagination. It's apparent that most of the residents are earnest in their undying wish to return America back to the 1950s. Robert tells them the deaths are of two troublemakers known to be white extremists in their late twenties. Prior to their deaths, their behavior had been somewhat

bizarre with both complaining of muscle spasms nausea and off the charts anxiety As Jack and Laurie get to work they are led to believe that a dangerous bioweapon might be at play which in the wrong hands could threaten the lives of the entire town and maybe all of America
