Robots Rick Allen Leider, 2015-07-07 Robots exist for so many different reasons Many robots replace humans whether it s because a situation is dangerous or just tedious There are rover robots to explore space and drone robots that play a part in our military today but then there are also vacuum robots available for the average household s chores In Japan there is a robot teacher that can mimic a wide range of human emotions including anger at uncooperative students thanks to eighteen small motors hidden beneath the latex skin covering her face The Japanese government hopes to use robots to fill jobs left vacant by an anticipated labor shortage due to an aging population In the United States robots even help with surgery allowing for incisions to be cut much smaller than
