second article is concerned with the smart enhancement of earthquake resilience of building structures under both near fault and long duration ground motions A hybrid system of base isolation and building connection control was proposed and its earthquake resilience to near fault and long duration ground motions was evaluated by a double impulse and a multiple impulse It was demonstrated that the base isolation is effective for near fault ground motions and the building connection system using passive dampers is effective for long duration ground motions The third article is related to the robustness evaluation of elastic plastic base isolated high rise buildings under resonant near fault ground motions The robustness function was introduced to evaluate quantitatively the robustness of elastic plastic base isolated high rise buildings The fourth article is an extension of the previously proposed energy balance approach to a bilinear elastic plastic single degree of freedom system under a long duration sinusoidal ground motion A historical difficulty in nonlinear vibration posed by Caughey 1960 and Iwan 1961 has been overcome in a smart manner after half a century The approach presented in this eBook together with the previous eBooks is an epoch making accomplishment to open the door for simpler and deeper understanding of structural reliability and resilience of built environments in the elastic plastic and nonlinear range

**Schätzverfahrens zur Bestimmung robuster Referenzwerte auf geringer Datenbasis unbekannter Güte** Marcel Brätz, 2014-06-16 Die Korrektheit eines Programms kann nur sehr selten absolut gewährleistet werden. Man muss sich also auf Tests beschränken, die auch so angelegt sind, dass mit großer Wahrscheinlichkeit die Korrektheit des Programms garantiert werden kann. Darüber hinaus kann nur in Spezialfällen genau gesagt werden, welche Werte die Korrekten sind. So kommt man also einerseits nicht umhin, Tests durchzuführen, und andererseits ein Bewertungsverfahren zu entwickeln, welches uns die Resultate als korrekt, weniger korrekt oder inkorrekt bewertet. Der Autor beschäftigt sich in diesem Buch mit der Bewertung von Programmen, die die Energieeffizienz von Gebäuden analysieren sollen. Hierfür hat er ein Testszenario entwickelt, welches mit den zuvor genannten Unsicherheiten umgehen kann.

**Confabulation: An Anecdotal Autobiography**

**by Dave Gibbons** Dave Gibbons, 2023-03-14 This comprehensive in depth and personal journey through the eyes of one of the world's most famous comics creators, Dave Gibbons spans his earliest years copying Superman and Batman comics as a kid to co-creating the bestselling graphic novel of all time, Watchmen, and beyond. Presented alphabetically with informally written anecdotes that can be read from cover to cover or simply dipped into, Gibbons reveals unseen comics pitches, life as the first Comics Laureate, and going from being a fanzine artist to infiltrating DC Comics in the 1970s. The book covers everything from working on Doctor Who and meeting Tom Baker to being inducted into the Eisner Hall of Fame. Gibbons also discusses for the first time anywhere the reasons why he and fellow Watchmen co-creator Alan Moore no longer speak. Packed with over 300 iconic, rarely seen, and unpublished art pieces and photographs, Confabulation: An Anecdotal Autobiography not only entertains but peels back the layers of a fascinating career in comics.
