Cliff Shelters and Hiding Complexes: The Jewish Defense Methods in Galilee During the Roman Period Yinon Shivti'el,2019-05-20 Cliff Shelters and Hiding Complexes in Galilee during the Early Roman Period is the result of years of intensive study conducted by Yinon Shivtiel throughout Galilee combining historical archaeological and speleological research The author documents and describes all the Galilean sites so far discovered containing the traces of underground cavities hewn out and readied by Jews as refuges and hiding places during the Early Roman period The study relies on accounts in two of Flavius Josephus works The Jewish War and The Life of Josephus where Josephus records that the Jewish population in Galilee prepared two types of underground chambers for use in times of adversity defined in the research as cliff shelters and hiding complexes During the author s comprehensive fieldwork which is thoroughly documented and described in the book it became clear that the first method exploited natural caves whose openings were located at the top of steep cliffs most of which could only be reached by rock climbing or rappelling with the aid of ropes The many finds from these shelters shed light on their extensive use during the Early Roman period Where no naturally fortified cliffs existed the Jews of Galilee resorted to quarrying out underground hiding complexes The book details the evidence and finds from the different forms of hiding complexes discovered beneath the remains of many of the Jewish settlements in Galilee chronicled by Flavius Josephus Research into these complexes has revealed their resemblance to similar hiding systems discovered in the Judean plain The book is copiously illustrated with plans figures and photographs of both types of underground chambers and it discusses their connection with the desperate times faced by the Jews in Galilee throughout the entire Early Roman period particularly during the Great Revolt

Mountaineering: The Freedom of the Hills The Mountaineers,2010-08-25 If there is only one how to book to read for the aspirant and expert alike it is Freedom of the Hills In fact it is fair to say that Freedom is the definitive guide to mountains and climbing and has influenced pretty much every climber Conrad Anker 50th anniversary edition of the title considered bible of climbing With nearly 1 million copies sold this is the all time bestselling mountaineering and climbing title Printed on 100% recycled paper Since the publication of the first edition in 1960 Freedom as the book is known has endured as a classic mountaineering text From choosing equipment to tying a climbing knot and from basic rappelling techniques to planning an expedition it s all here in this essential mountaineering reference A team of more than 40 experts all active climbers and climbing educators reviewed revised and updated this compendium to reflect the latest evolutions in mountaineering equipment and techniques Major updates include a significant new chapter on conditioning plus detailed and extensive revisions to rescue and first response aid climbing and waterfall and ice climbing

Canadian Rockies Backroad Mapbook Russell Mussio,2016-07-02 This book focuses on the Canadian Rocky Mountain

Parks an interconnected system of provincial and national parks covering more than 30 000 square kilometres 18 630 mi² These parks vary in popularity and access some see millions of visitors each year while others see visitors in the tens of thousands Some parks are easily accessed from a major highway while others require rigorous journeys by foot horse or plane Each of these parks offers a unique twist on the dramatic landscapes that define the Rockies towering mountain peaks rushing rivers ancient glaciers wildflower filled meadows brilliant blue lakes and dense forests make up this outdoor paradise With so much area to explore it can be overwhelming trying to decide on where to go Luckily our Canadian Rockies Mapbook provides a well organized and easy to use breakdown of the region s parks to help you decide on the adventure that is right for you With state of the art topographic maps detailed trip planning resources and meticulously researched adventure listings our Mapbook will ensure you make the most out of your Rockies experience

Mountaineering Literature Jill Neate,1986 Long established as a standard reference work worldwide this is a thorough bibliography of all mountaineering books that are of practical use to climbers or for reading pleasure or historical interest Documenting more than 2000 books of mountaineering literature it also includes nearly 900 climber s guidebooks a sampling of more than 400 works of mountaineering fiction plus journals and bibliographies

Extreme Rock Climbing Daniel Benjamin,2013-08-01 Readers will explore the history of this sport what it takes to get started where to climb and who the heroes of the sport are All readers need is this book is the right gear a rock wall and a sense of adventure

Mountaineering and Its Literature Jill Neate,1980 Few areas of human endeavor and adventure have such an extensive literature as does mountaineering perhaps because the activity itself is so diverse ranging from gymnastic feats of modern rock climbers through alpinism to Himalayan conquests and exploration Even before Edward Whymper climbed the Matterhorn in 1865 and wrote the celebrated *Scrambles in the Alps* mountaineers had felt compelled to record their adventures and their sense of wonder at the mountain world In recent years the literature has expanded considerably to account for the phenomenal growth of mountain activities Expeditions are now commonplace and the great mountain ranges are no longer beyond the reach of the average climber This extensive bibliography describes works on mountaineering published in the English language since 1744 But it s far more than a dry catalog of books as author Neate gives notes which help the reader assess a book s reliability and significance An indispensable reference for the active climber would be explorer and bibliophile alike

Technical Skills for Adventure Programming Mark Wagstaff,2009 This curriculum guide will improve your knowledge and technical instruction skills in land water and snow and ice sports and activities It will guide you in becoming a skilled adventure instructor in the classroom and in the field The CD ROM has printable lesson plans for each unit that make it easy to print only what you will need in the field book cover

Rock Climbing, 2nd Edition Topher Donahoe,Craig Luebben,2014-09-22 Approximately 35 new techniques safety considerations and subjects National Outdoor Book Award winner in first edition First edition of this popular title has sold 50 000 copies Thousands of rock climbers have learned the sport using Craig Luebben s seminal and

bestselling text Rock Climbing Mastering Basic Skills Now Craig s friend and fellow climber Topher Donahue brings the content up to current standards and includes technological advances while preserving Craig s comprehensive approach An award winning climber in his own right Topher uses his writing and photography skills to simplify the complex world of modern climbing technique and reveals the thought process behind safe and practical climbing methods This second edition includes European climbing techniques that offer alternatives to those traditionally taught in North America Topher has also incorporated new lessons derived from accidents due in part to the increased popularity of climbing Also found in this edition Over 10 000 more words and 125 more photos Three never before published techniques Adjustable Hitch High Friction Tubes and Bight Method Detailed technical updates throughout New distinction between anchor a group of placements pieces or bolts used at the end of a pitch or for top rope or rappel setup and placement or piece individual cams nuts etc used in groups to make an anchor or used individually as protection on a pitch **NOLS Wilderness Mountaineering** Phil Powers,2008-12-18 This updated edition of the popular NOLS Wilderness Mountaineering reflects the most current practices equipment and risk management in mountain climbing
