Rock Bottom Beyond Drug Addiction Social Ecology Series:

Rock Bottom Aalt van den Berg, Arta Rehabilitation Centre, 1987 *Beyond Provincialism* Mahmoud Suleiman, Tonya Huber, 2022-08-01

International Education Inquiries is a book series dedicated to realizing the global vision of Education 2030. This vision involves ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all. The founding editors seek to provide a forum for the diverse voices of scholars and practitioners from across the globe, asking questions about transforming the vision of Education 2030 into a reality. Published chapters will reflect a variety of formats free of methodological restrictions involving disciplinary as well as interdisciplinary inquiries. We expect the series will be a leading forum for pioneers redefining the global discussion about the people, places and perspectives shaping Education 2030 outcomes.

ENDORSEMENTS

The educational impact of the COVID 19 pandemic has created the most serious crisis in the history of public education. Addressing this crisis effectively will require efforts aligned with an inclusive and sustainable vision of development such as articulated by the UN Education 2030 and the Sustainable Development Goals. To build back better, educators need to guide their practice by knowledge that is local as well as global in ways that help their students understand those interdependencies. *Beyond Provincialism* is an invitation to such an exploration. In this edited volume, Professors Mahmoud Suleiman and Tonya Huber and their colleagues take the reader on a journey that illuminates the impact of hunger among college students in America, how the SDGs can help turnaround high poverty schools, the role of curriculum to promote cross national collaboration and how math and science instruction as well as study abroad can help students develop procedural and conceptual knowledge that makes visible the relevance of what they learn to the world around them and the impact of the pandemic on teacher preparation in Palestine. The kaleidoscope of insights offered by this book will expand the global awareness and understanding of education as a global activity. A timely and useful resource for teachers and teacher educators that will contribute to advance a transformational education that helps us build back better from the devastation created by the pandemic.

Fernando M Reimers, Harvard Graduate School of Education

Suleiman and Huber convene a dynamic group of scholars committed to transforming our schools. Using the latest theories and methodological approaches, *Beyond Provincialism* offers crucial frameworks to understand teaching and learning in a global perspective. This groundbreaking volume wholeheartedly embraces the Sustainable Development Goals (SDGs) and calls upon all of us to simultaneously dismantle systemic inequality and promote equity and social justice in pre-K-20 schools across nations and their institutions. It is simply a must-read book, especially for practitioners, educators, reformers, researchers and policy makers who seek to internationalize education and take it beyond its cursory provincial goals.

Gilberto Q Conchas, Wayne K and Anita Woolfolk, Pennsylvania State University

At a time when proponents of diversity, equity and inclusion are under attack, it is valuable to examine *Beyond Provincialism* to see how far we still need to go to reform schools and invest in teacher educator and leader preparation. Grounded in solid frameworks, this timely and informative book astutely

provides insights from forceful practitioners scholars and researchers whose fascinating experiences and models have practical implications for promoting global multicultural competencies needed to combat racist mindsets and provincial outlooks Based on Education 2030 vision the book provides a thoughtful blueprint for integrating international and global dimensions in teacher and educator preparation Ken Magdaleno Center for Leadership Equity and Research CLEAR

Connection to Nature, Deep Ecology, and Conservation Social Science Christian Diehm,2020-12-15 In Connection to Nature Deep Ecology and Conservation Social Science Human Nature Bonding and Protecting the Natural World Christian Diehm analyzes the relevance of the philosophy of deep ecology to contemporary discussions of human nature connectedness Focusing on deep ecologists notion of identification with nature Diehm argues that deep ecological theory is less conceptually problematic than is sometimes thought and offers valuable insights into what a sense of connection to nature entails what its attitudinal and behavioral effects might be and how it might be nurtured and developed This book is closely informed by and engages at length with conservation social science which Diehm draws on to assess the claims of deep ecology theorists resolve long standing problems associated with their work investigate the impacts of time outdoors on human nature bonding and critically review the biophilia hypothesis Emphasizing the foundational role of ecologically inclusive identities in pro environmental attitudes and behaviors Diehm demonstrates that having a sense of connection to nature is more important than many environmental advocates have realized and that deep ecology has much to add to the increasingly pressing conversations about it
