convertido en una mercancía más. Se vende y se compra. Pienso un instante quién decide cuáles aspectos de la cultura son los más valiosos y por qué. ¿Qué pasa con los aspectos que rechaza el mercado? Todos entran al juego de la comercialización: las fuerzas del mercado seleccionan los rasgos culturales a destacar o ignorar. Los medios de comunicación deciden qué difunden e incluso las ciencias sociales desempeñan un papel fundamental a la hora de calificar las tradiciones verdaderas estimulando con ello la mercantilización y monopolizando aquello que se define como auténtico. Este libro así discute cómo se han manipulado diversos conceptos como la cultura, la autenticidad y la identidad. ¿Qué problemas significa este fenómeno para el conocimiento de México y de Latinoamérica? ¿Quiénes son los clientes? ¿Quiénes los autenticadores? ¿Qué perdemos en este proceso?

Alternative discourses Laura Martínez-Hernández, 2005 *BIKINIS, FÚTBOL Y ROCK & ROLL* VOGEL, ADRIAN, 2017-10-17 Esta es la crónica de aquellos años que cambiaron el mundo demostrando que como llevan diciendo desde hace siglos los profetas son las pequeñas personas con pequeños gestos quienes generan los cataclismos. Escribe en el prólogo El Gran Wyoming roquero activo con Los Insolventes. Desde una perspectiva pop, Bikinis Fútbol y rock roll nos sumerge en esas conmociones que sacudieron el mundo occidental desde la década de los cincuenta del siglo pasado con consecuencias imprevisibles en el llamado segundo franquismo. Colectivos como el LGTB, las mujeres, los jóvenes o el movimiento por los Derechos Civiles agitaron las conciencias y contribuyeron a configurar nuevas escalas de valores. El opresivo franquismo sociológico comenzó a agrietarse. Este libro recoge en su título realidades concretas y representativas de fenómenos de masas que permeabilizaron la dictadura franquista. Han sido símbolos de pugnas contra la represión sexual, el racismo y la xenofobia. Signos de transformaciones sociales que impactaron en la sociedad española. Una historia de historias. Tanto de héroes y heroínas anónimas como de los principales protagonistas de esos años: creadores y empresarios. El autor refleja testimonios directos de las figuras más importantes. Los hechos más relevantes son puestos en perspectiva y se evalúa su influencia e impacto en términos económicos y sobre todo emocionales. *Educación y expresión en sociedades inclusivas. El camino hacia la diversidad*, 2024-12-31 En un mundo que gira a gran velocidad detener la mirada constituye un desafío y este libro lo merece. Necesitamos un tiempo de quietud para repensar algunas dimensiones del espacio social y emocional que habitamos. Un lugar más amable que pueda funcionar como punto de apoyo desde donde mirar lo que nos pasa y les pasa a los otros con quienes nos vinculamos. Los capítulos que siguen van en esa dirección: retoman problemáticas en torno a la desigualdad de género, el diseño de estrategias educativas para fomentar la inclusión, la actividad física como vector de mejoramiento de la calidad de vida, el lugar del arte en el desarrollo de la persona. Estos y otros tantos temas son abordados minuciosamente por sus autores, quienes se hacen eco de las experiencias que surgen de una realidad multifacética. *The SAGE International Encyclopedia of Music and Culture* Janet Sturman, 2019-02-26 The SAGE Encyclopedia of Music and Culture presents key concepts in the study of music in its cultural context and provides an introduction to the discipline of ethnomusicology, its methods, concerns and its contributions to knowledge and understanding of the world's musical cultures.

Jonathyne Briggs, 2015-03-02 *Sounds French* examines the history of popular music in France between the arrival of rock and roll in 1958 and the collapse of the first wave of punk in 1980 and the connections between musical genres and concepts of community in French society During this period scholars have tended to view the social upheavals associated with postwar reconstruction as part of debates concerning national identity in French culture and politics a tendency that developed from political figures and intellectuals concerns with French national identity In this book author Jonathyne Briggs reorients the scholarship away from an exclusive focus on national identity and instead towards an investigation of other identities that develop as a result of the increased globalization of culture Popular music at once individual and communal fixed and plastic offers an illuminating window into such transformations in social structures through the ways in which musicians musical consumers and critical intermediaries reimagined themselves as part of novel cultural communities whether local national or supranational in nature Briggs argues that national identity was but one of a panoply of identities in flux during the postwar period in France demonstrating that the development of hybridized forms of popular music provided the French with a method for expressing and understanding that flux Drawing upon an array of printed and aural sources including music publications sound recordings record sleeves biographies and cultural criticism *Sounds French* is an essential new look at popular music in postwar France
