Rocket Mail Max Kronstein, 1987-06-01 *India's Forgotten Rocket Pioneer* Gurbir Singh, 2020-01-01 During 1934 and 1944 in Calcutta Stephen Smith worked alone and unsupported on developing rocket transport In 1935 he was the first to demonstrate the successful transport by a rocket of livestock food and medicine This book charts the story of Stephen H Smith described by a contemporary as the greatest one man campaign for rocketry He dedicated his life to working alone in northeast India to develop a new revolutionary means of transport using only rocket power The development of rockets in India is commonly understood to have ended with Tipu Sultan in 1799 and started again in 1963 with what is now called the Indian Space Research Organisation However in the intervening period one man built and championed rockets working alone in Calcutta In 1925 he set up the Indian Air Mail Society and it is amongst the global philatelic community where his work is still known but is almost entirely forgotten from the popular imagination in India On 14 February 1891 Stephen H Smith the only son of a tea plantation manager originally from Norfolk England was born in the Strawberry Hill region of Shillong Between 1934 and 1944 he conducted over 200 rocket experiments to demonstrate the utility of a rocket as a means of transport Small self funded groups to develop rockets were established in USSR USA Britain Australia and Germany From these groups Sergei Korolev and Wernher von Braun emerged and competed in the epic space race that resulted in Sputnik Gagarin and Apollo 11 Stephen H Smith was their contemporary but worked alone and unsupported in India Long after he had died he was inducted into the Hall of Fame by the American Airmail Society in 1989 In 1992 a year after the centenary of his birth the Indian government celebrated his achievements by issuing a stamp and a first day cover dedicated to his work Today his work is found in official NASA publications the Journal of the British Interplanetary Society and the National Air and Space Museum This new study of his contacts with the King of Sikkim King George V with a member of parliament in London and a 25 year long correspondence with a Swiss philatelist reveals in his own words his struggle to attain recognition and support for his work His reluctant attempt to work with the military authorities in India during World War II ended in frustration His multiple attempts in 1949 to contact the Governor of Bengal and Prime Minister Nehru in the newly independent India failed to generate a response *The Phone Book* Ammon Shea, 2010-10-05 Read Ammon Shea's blogs and other content on the Penguin Community A surprising lively and rich history of that ubiquitous doorstep that most of us take for granted Ammon Shea is not your typical thirtysomething book enthusiast After reading the Oxford English Dictionary from cover to cover and living to write about it in Reading the OED what classic familiar but little read book would he turn to next Yes the phone book With his signature combination of humor curiosity and passion for combing the dustbins of history Shea offers readers a guided tour into the surprising strange and often hilarious history of the humble phone book From the first printed version in 1878 it had fifty listings and no numbers to the phone book's role in presidential elections Supreme Court rulings Senate filibusters abstract art subversive poetry circus sideshows criminal investigations mental health
