how ancient Egyptians used cats to send messages to the gods He reveals why the Catholic Church demonized cats and how cats are symbols of both Good and Evil Examining cat evolution the author looks at spiritual behaviors attributed to cats as well as modern biological research into cat behavior and their highly sophisticated sensory systems which unlike most other animals have changed very little over millions of years He explores their psychic ability to sense what humans cannot and the origins of their glowing eyes which has connected cats through myth to both the Underworld and the World of Light He also explores similarities between cat and human emotions cat communications with us and the deep connection between cats and meditation Revealing the spiritual journey of the cat from fearsome predator to occult symbol to household companion the author shows how in many ways cats are mirrors of us reflecting our conflicting dual nature that is at once loving yet distant magical yet vengeful and above all deeply connected to the spirit world      **The American Encyclopaedic**
