Rococo to Cubism in Art and Literature Wylie Sypher, 1960 *Rococo to Cubism in Art and Literature* Wylie Sypher, 1960 Rococo to Cubism in Art and Literature R. L. Oldfield, 1960 **Rococo to Cubism in Art and Literature /by Wylie Sypher** , 1960 The Imprint of the Picturesque on Nineteenth-Century British Fiction Alexander M. Ross, 2006-01-01 Despite the negative criticism directed at its sentiment its heartlessness its superficiality the picturesque remained in both art and fiction of Victorian England a mode of seeing that even the greatest of the artists and novelists relied upon from time to time so that their viewers and readers could rejoice in the instant recognition of place and character distinctly limned and sometimes subtly enough to elicit sympathy Preface After briefly tracing the development of the theory of the picturesque in the eighteenth century writings of William Gilpin Sir Uvedale Price and Richard Payne Knight and examining how nineteenth century novelists accommodated aesthetic theory to the practice of fiction Ross focuses on the use of the picturesque in the works of Sir Walter Scott Charlotte Bronte Charles Dickens George Eliot and Thomas Hardy The persistence of the picturesque through novels ranging from Waverley to Jude the Obscure and in writers like Dickens and Eliot who had little respect for its conventions attests to its strength and attraction in nineteenth century literature **The Visual Arts, Pictorialism, and the Novel** Marianna Torgovnick, 2014-07-14 Marianna Torgovnick maintains that it is worthwhile to think about novels in terms of the visual arts in part because major novelists like James Lawrence and Woolf did so and did so fruitfully as they were influenced by their perceptions of artistic movements Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Authors and Art Movements of the Twentieth Century Declan Lloyd, 2022-12-30 This book explores the great influence of twentieth century artists and art movements on many major writers of the twentieth century It focuses in particular on four seminal writers who were strongly influenced by very different movements they are Gertrude Stein and Cubism William S Burroughs and Dada J G Ballard and Surrealism and Douglas Coupland and Pop Art For these authors the presence and influence of these art movements is not limited to a small cluster of texts but can be felt much more expansively across their work infiltrating all manner of multifarious and complex dimensions These authors are all keen to explore new methods of shifting the signature styles and forms of visual art into the literary world Alongside these more overt methods of artistic transposition the authors also often demonstrate a deep philosophical affinity with their chosen movements This book uproots and examines these kinds of artistic engagements and also explores the authors own personal connections with the world of art For these are all authors not only interested in

visual art but also intimately connected to the art world Indeed some went on to become renowned artists in their own right while others were closely associated with major historical art figures Above all however they are unified by a kindred interest in exploring how the methods and philosophies of art can be transposed into and even challenge the constraints of traditional forms of literature *The Princeton Encyclopedia of Poetry and Poetics* Roland Greene, Stephen Cushman, Clare

Cavanagh, Jahan Ramazani, Paul Rouzer, Harris Feinsod, David Marno, Alexandra Slessarev, 2012-08-26 Rev ed of The Princeton encyclopedia of poetry and poetics Alex Preminger and T V F Brogan co editors Frank J Warnke O B Hardison Jr and Earl Miner associate editors 1993 **Comparative Criticism: Volume 4, The Language of the Arts** E. S. Shaffer, 1982-11-11

Addresses literary theory and criticism comparative studies in terms of theme genre movement and influence and interdisciplinary perspectives **The Supplement of Reading** Tilottama Rajan, 2018-03-15 Tilottama Rajan illuminates a

crisis of representation within romanticism evident in the proliferation of stylistically and structurally unsettled literary texts that resist interpretation in terms of a unified meaning The Supplement of Reading investigates the role of the reader both in romantic literary texts and in the hermeneutic theory that has responded to and generated such texts Rajan considers how selected works by Coleridge Wordsworth Blake Shelley Godwin and Wollstonecraft explore the problem of understanding in relation to interpretive difference including the differences produced by gender class and history **Authorship and Film**

David A. Gerstner, Janet Staiger, 2013-09-13 Authorship in film has been a persistent theme in the field of cinema studies This volume of new work revitalizes the question of authorship by connecting it to larger issues of identity in film in the marketplace in society in culture Essays range from the auteur theory and Casablanca to Oscar Micheaux from the American avant garde to community video all illuminating how authorship is a complex idea with far reaching implications This ambitious and wide ranging book will be essential reading for anyone concerned with film studies and the concept of the author **Modernism After the Death of God** Stephen Kern, 2017-11-22 Modernism After the Death of God explores the

work of seven influential modernists Friedrich Nietzsche James Joyce D H Lawrence Andr Gide and Martin Heidegger criticized the destructive impact that they believed Christian sexual morality had had or threatened to have on their love life Although not a Christian Freud criticized the negative effect that Christian sexual morality had on his clinical subjects and on Western civilization while Virginia Woolf condemned how her society was sanctioned by a patriarchal Christian authority All seven worked to replace the loss or absence of Christian unity with non Christian unifying projects in their respective fields of philosophy psychiatry or literature The basic structure of their main contributions to modernist culture was a dynamic interaction of radical fragmentation necessitating radical unification that was always in process and never complete

Spanish American Poetry at the End of the Twentieth Century Jill Kuhnheim, 2010-07-05 Has poetry lost its relevance in the postmodern age unable to keep pace with other forms of cultural production such as film mass media and the Internet Quite the contrary argues Jill Kuhnheim in this pathfinding book which explores how recent Spanish American poetry

participates in the fundamental cultural debates of its time Using a variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of Spanish American poetry since the 1970s

The Aesthetic State Josef Chytrý, 2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytrý provides a comprehensive and extensive study of this central motif in German thought from
