way for our freedom Now they come together once again as one big family to shed an insight on their achievements so that you can fully understand and appreciate what they have and had experienced I dedicate this work to the memory of all those who have made the supreme sacrifice in order that we may live in peace and prosperity and also to the families of those who did not return The book is not a glorification of war but a glorification of the individual and his or her actions and deeds

become one of Australia's leading cancer surgeons and campaigners pioneering new treatment methods for localised cancers. In writing this book he hopes to convince authorities that a comprehensive cancer centre can no longer be considered complete without a widely experienced Department of Surgical Oncology. Professor Stephens's dedicated career pioneering the scientific multifaceted treatment of people with locally advanced cancers is now part of medical history. The trials and tribulations that befall pioneers of radical sensible ideas such as jealousy, pig-headedness and hidden political motives and how they have been overcome by this courageous and talented surgeon are now part of this open, very readable story.

Professor Earl Owen AO Past President International College of Surgeons Frederick Stephens grew up in a house without electricity, telephone, running water or sewerage. From this he grew up to be Professor of Surgery at the University of Sydney, a remarkable achievement. Along the way he helped improve dramatically the treatment of surgical patients with cancer.

*Desert Diggers* Writings from a War Zone Somewhere in the Middle East 1940-1942 draws upon hundreds of soldiers' letters in a fresh and captivating narrative of the war in North Africa. *Desert Diggers* follows the first men to volunteer after the outbreak of war in 1939, tracing their adventures in exotic ports before further training in Palestine. A hunger for action grew. Most of the chaps are anxious to get into anything that looks like a fight. One soldier wrote to his brother from Egypt: the hottest and dustiest place on God's earth was the Diggers' next destination, and their bloodied in the battles for Bardia and Tobruk. After Rommel failed to storm Tobruk in April-May 1941, Nazi propaganda denigrated the garrison, caught like rats in a trap. Amid frequent bombing and shelling, Berlin's scornful broadcasts were an unintended tonic. Frequently we laughed and joked until the tears came into our eyes. A Digger quipped: From Tobruk to the blunting of Rommel's attacks at El Alamein, the price of victory was palpably high. Some of my best mates didn't come out of it. Lamented a corporal to his sister. Returning to Australia in 1943, some men maimed or traumatised brought a further test for the Diggers. Told in the words of the men who served, *Desert Diggers* offers a new personal perspective on the Western Desert campaign. With immediacy and raw emotion, these skillfully woven letters provide a remarkable and compelling account of the Australian experience of war.      **From Strength to Strength** Allan Blanch, 2018-04-29      **The Statesman's Year-Book 1974-75** J.
