Roger Bishop Of Worcester 1164 1179 An English Bishop Of The Age Of Becket:

The Canons of the Third Lateran Council of 1179 Danica Summerlin, 2019-11-28 Investigates papal government in the later twelfth century focusing on the decrees issued at papal councils and their reception *The Secular Clergy in England, 1066-1216* Hugh M. Thomas, 2014 The secular clergy priests and other clerics outside of monastic orders were among the most influential and powerful groups in European society during the central Middle Ages The secular clergy got their title from the Latin word for world saeculum and secular clerics kept the Church running in the world beyond the cloister wall with responsibility for the bulk of pastoral care and ecclesiastical administration This gave them enormous religious influence although they were considered too worldly by many contemporary moralists trying for instance to oppose the elimination of clerical marriage and concubinage Although their worldliness created many tensions it also gave the secular clergy much worldly influence Contemporaries treated elite secular clerics as equivalent to knights and some were as wealthy as minor barons Secular clerics had a huge role in the rise of royal bureaucracy one of the key historical developments of the period They were instrumental to the intellectual and cultural flowering of the twelfth century the rise of the schools the creation of the book trade and the invention of universities They performed music produced literature in a variety of genres and languages and patronized art and architecture Indeed this volume argues that they contributed more than any other group to the Twelfth Century Renaissance Yet the secular clergy as a group have received almost no attention from scholars unlike monks nuns or secular nobles In *The Secular Clergy in England 1066 1216* Hugh Thomas aims to correct this deficiency through a major study of the secular clergy below the level of bishop in England from 1066 to 1216 **English Episcopal Acta 26, London 1189-1228** D.P. Johnson, David Michael Smith, 2003-07-10 This volume contains the acta of three bishops of London Richard of Ely William de Ste M re glise and Eustace of Fauconberg Both Richard and Eustace saw service as royal treasurer indeed Richard wrote the handbook on Exchequer practice the *Dialogus de Scaccario* William on the other hand spearheaded the papal campaign against King John during the General Interdict *The Medieval Origins of the Legal Profession* James A. Brundage, 2024-05-31 In the aftermath of sixth century barbarian invasions the legal profession that had grown and flourished during the Roman Empire vanished Nonetheless professional lawyers suddenly reappeared in Western Europe seven hundred years later during the 1230s when church councils and public authorities began to impose a body of ethical obligations on those who practiced law James Brundage s *The Medieval Origins of the Legal Profession* traces the history of legal practice from its genesis in ancient Rome to its rebirth in the early Middle Ages and eventual resurgence in the courts of the medieval church By the end of the eleventh century Brundage argues renewed interest in Roman law combined with the rise of canon law of the Western church to trigger a series of consolidations in the profession New legal procedures emerged and formal training for proctors and advocates became necessary in order to practice law in the reorganized church courts Brundage demonstrates that many features that characterize legal advocacy today were already in

place by 1250 as lawyers trained in Roman and canon law became professionals in every sense of the term A sweeping examination of the centuries long power struggle between local courts and the Christian church secular rule and religious edict *The Medieval Origins of the Legal Profession* will be a resource for the professional and the student alike *The Cambridge History of the Book in Britain: 1100-1400* Richard Gameson, Nigel J. Morgan, Lotte Hellinga, Rodney M. Thomson, Joseph Burney Trapp, John Barnard, David McKitterick, Maureen Bell, Michael F. Suarez, Michael L. Turner, Ian R. Willison, 1999 The history of the book offers a distinctive form of access to the ways in which human beings have sought to give meaning to their own and others lives Our knowledge of the past derives mainly from texts Landscape architecture sculpture painting and the decorative arts have their stories to tell and may themselves be construed as texts but oral tradition manuscripts printed books and those other forms of inscription and incision such as maps music and graphic images have a power to report even more directly on human experience and the events and thoughts which shaped it The seven volumes of the *History of the Book in Britain* will help explain how these texts were created why they took the forms they did their relations with other media and what influence they had on the minds and actions of those who heard read or viewed them Its range too in time place and the great diversity of the conditions of text production including reception challenges any attempt to define its limits and give an account adequate to its complexity It addresses whether by period country genre or technology widely disparate fields of enquiry each of which demands and attracts its own forms of scholarship The *Cambridge History of the Book in Britain* seeks to represent much of that variety The volumes investigate the creation material production dissemination and reception of texts effectively plotting the intellectual history of Britain Publisher description *Balaam's Ass: Vernacular Theology Before the English Reformation* Nicholas Watson, 2022-06-21 For over seven hundred years bodies of writing in vernacular languages served an indispensable role in the religious and intellectual culture of medieval Christian England yet the character and extent of their importance have been insufficiently recognized A longstanding identification of medieval western European Christianity with the Latin language and a lack of awareness about the sheer variety and quantity of vernacular religious writing from the English Middle Ages have hampered our understanding of the period exercising a tenacious hold on much scholarship Bringing together work across a range of disciplines including literary study Christian theology social history and the history of institutions Balaam's Ass attempts the first comprehensive overview of religious writing in early England's three most important vernacular languages Old English Insular French and Middle English between the ninth and sixteenth centuries Nicholas Watson argues not only that these texts comprise the oldest continuous tradition of European vernacular writing but that they are essential to our understanding of how Christianity shaped and informed the lives of individuals communities and polities in the Middle Ages This first of three volumes lays out the long post Reformation history of the false claim that the medieval Catholic Church was hostile to the vernacular It analyzes the complicated idea of the vernacular a medieval innovation instantiated in a huge body

of surviving vernacular religious texts Finally it focuses on the first long generation of these writings in Old English and early Middle English

Religious Conflict at Canterbury Cathedral in the Late Twelfth Century James Barnaby, 2024

Documents a long running dispute between the archbishops and monks of Canterbury throughout the 1180s and 1190s For fifteen years the monks of Christ Church Canterbury waged a war against their archbishop over a plan to build a church to provide funds for their administration dedicated to Thomas Becket Fearing the loss of their most beloved and lucrative saint to this new institution the monks embarked on a course of action which saw rioting in the streets of Canterbury their excommunication and the cathedral placed under siege by the archbishop Although at first glance an internal dispute between the archbishop and his cathedral chapter it had a wide ranging impact The monks travelled thousands of miles in support of their cause enlisting the backing of popes cardinals and the elites of Europe In England the kings during the period took a personal interest in the dispute sometimes attempting to resolve it and sometimes hindering any chance of peace This book the first full account of the conflict draws on the huge collection of letters it provoked one of the largest compiled in the twelfth century alongside other sources such as monastic culture to offer a detailed narrative of this complicated feud between Archbishops Baldwin of Forde Hubert Walter and their cathedral monks it also considers the continuations of the dispute in the thirteenth and fourteenth centuries In addition it analyses the key themes of the conflict the role of royalty travel and the deployment of Thomas Becket

Order in the Court: Medieval Procedural Treatises in

Translation Bruce Brasington, 2016-03-17 In Order in the Court Brasington translates and comments upon the earliest medieval treatises on ecclesiastical legal procedure Beginning with the eleventh century Marturi Case the first citation of the Digest in court since late antiquity and the jurist Bulgarus letter to Haimeric the papal chancellor we witness the evolution of Roman law procedure in Italy The study then focusses on Anglo Norman works all from the second half of the twelfth century The De edendo the Practica legum of Bishop William of Longchamp and the Ordo Bambergensis blend Roman and canon law to guide the judge advocate and litigant in court These reveal the study and practice of the learned law during the turbulent Age of Becket and its aftermath

The New Cambridge Medieval History: Volume 4, C.1024-c.1198, Part 2 Rosamond McKitterick, David Abulafia, C. T. Allmand, 1995 The fourth volume of The New Cambridge Medieval History covers the eleventh and twelfth centuries which comprised perhaps the most dynamic period in the European middle ages This is a history of Europe but the continent is interpreted widely to include the Near East and North Africa The volume is divided into two parts of which this the second deals with the course of events ecclesiastical and secular and major developments in an age marked by the transformation of the position of the papacy in a process fuelled by a radical reformation of the church the decline of the western and eastern empires the rise of western kingdoms and Italian elites and the development of governmental structures the beginnings of the recovery of Spain from the Moors and the

establishment of western settlements in the eastern Mediterranean region in the wake of the crusades **Roger, Bishop of Worcester, 1164-1179** Mary Gwendolen Cheney, 1980 This detailed account of Roger Bishop of Worcester 1164 1179 a man considered to be one of the great luminaries of the English church offers fresh insight into the history of the Church in the twelfth century its relations with king and pope and the conflict of Archbishop Thomas Beckett with King Henry II

Gratian and the Schools of Law, 1140-1234 Stephan Kuttner, 2018-10-30 Collected Studies CS1071 The central figure in this volume is that of Gratian whose monumental compilation of canon law sparked off the revival of legal studies in the medieval West In other collections of essays Stephan Kuttner dealt with the development of canon law in the two centuries that followed the publication of Gratian's Decretum and the ideas that this engendered here he is concerned with the foundations upon which all these later efforts were based The work of Gratian is of course the principal focus but the studies then follow the spread of the teaching of law from its inception at Bologna in the 1140s to its appearance soon after in other centres of learning in the West especially in France in the Anglo Norman schools and in Germany With a quarter of the volume consisting of additional notes and extensive indexes it makes a contribution of the greatest importance to the historical study of canon law For this second edition a new section of additional notes has been supplied and the volume is introduced with an essay by Peter Landau these take account of the important recent work on Gratian and the Decretum and chart the significance of Stephan Kuttner's work *Feudal Assessments and the Political Community under Henry II and His Sons* Thomas K.
