Roger Caillois:

Pontius Pilate Roger Caillois, 2006 If you thought you knew all there is to know about Pontius Pilate and Jesus this little book has some surprises for you In this greatest story never told Pontius Pilate finally gets a chance to tell his side of the story filling in what the Bible left out For someone who made one of the most momentous decisions of all time we know almost nothing about him Who was this man who sentenced Jesus to death What went through his mind as he weighed the alternatives Was he a villain or a victim of circumstance If we can imagine Pilate as our contemporary what would we have done in his place Written by one of France's great men of letters of the twentieth century Pontius Pilate is a highly provocative and psychologically gripping novel that reconstructs Pilate's state of mind in deciding to convict Jesus Taking his place alongside the authors of other such sacred fantasies as Nikos Kazantzakis *The Last Temptation of Christ* and Dan Brown *The Da Vinci Code* the surrealist Roger Caillois conjures countless plausible dramas of the what ifs that might have played out inside Pilate's mind during the final twenty four hours before he decided Jesus's fate Transgressive disconcerting and original Pontius Pilate provides a fascinating opportunity to contemplate the mind of a man who with one decision arguably changed the course of human history It explores the interplay of politics and conscience fundamentalism and cosmopolitanism and fanaticism and pragmatism themes even more compelling today than they were forty some years ago when the book was originally published With an introduction by the religion scholar Ivan Strenski this new American edition of Charles Lam Markmann's original English translation published in 1963 and long since out of print makes available once again for the English language reading public a remarkable work of intelligence wit and imagination Pontius Pilate offers an engaging and climactic read for anyone interested in the interplay of religion and culture and in the mysteries of this pinnacle moment in the biblical narrative

Mimesis and Alterity Michael T. Taussig, 1993 First Published in 1993 Routledge is an imprint of Taylor Francis an

informa company Sacred Surrealism, Dissidence and International Avant-Garde Prose Vivienne Brough-Evans, 2016-05-05
 Vivienne Brough Evans proposes a compelling new way of reevaluating aspects of international surrealism by means of the category of *divin fou* and consequently deploys theories of sacred ecstasy as developed by the Collège de Sociologie 1937-39 as a critical tool in shedding new light on the literary oeuvre of non-French writers who worked both within and against a surrealist framework. The minor surrealist genre of prose literature is considered herein rather than surrealism's mainstay poetry with the intention of fracturing preconceptions regarding the medium of surrealist expression. The aim is to explore whether International surrealism can begin to be more fully explained by an occluded strain of dissident surrealist thought that searches outside the self through the affects of ekstasis. Bretonian surrealism is widely discussed in the field of surrealist studies and there is a need to consider what is left out of surrealist practice when analysed through this Bretonian lens. The Collège de Sociologie and Georges Bataille's theories provide a model of such elements of dissident surrealism which is used to analyse surrealist or surrealist-influenced prose by Alejo Carpentier, Leonora Carrington and Gellu Naum respectively representing postcolonial feminist and Balkan locutions. The Collège and Bataille's dissident surrealism diverges significantly from the concerns and approach towards the subject explored by surrealism. Using the concept of ekstasis to organise Bataille's theoretical ideas of excess and inner experience and the Collège's thoughts on the sacred it is possible to propose a new way of reading types of International surrealist literature many of which do not come to the forefront of the surrealist literary oeuvre.

Design, Mediation, and the Posthuman Dennis M. Weiss, Amy D. Proppen, Colbey Emmerson Reid, 2014-08-14. Though the progress of technology continually pushes life toward virtual existence the last decade has witnessed a renewed focus on materiality. *Design, Mediation and the Posthuman* bears witness to the attention paid by literary theorists, digital humanists, rhetoricians, philosophers and designers to the crafted environment, the manner in which artifacts mediate human relations and the constitution of a world in which the boundary between humans and things has seemingly imploded. The chapters reflect on questions about the extent to which we ought to view humans and nonhuman artifacts as having equal capacity for agency and life and the ways in which technological mediation challenges the central tenets of humanism and anthropocentrism. Contemporary theories of human-object relations presage the arrival of the posthuman which is no longer a futuristic or science-fictional concept but rather one descriptive of the present and indeed the past. Discussions of the posthuman already have a long history in fields like literary theory, rhetoric and philosophy and as advances in design and technology result in increasingly engaging artifacts that mediate more and more aspects of everyday life it becomes necessary to engage in a systematic interdisciplinary critical examination of the intersection of the domains of design, technological mediation and the posthuman. Thus this collection brings diverse disciplines together to foster a dialogue on significant technological issues pertinent to philosophy, rhetoric, aesthetics and science.

thought "Art, Technology and Nature " Camilla Skovbjerg Paldam, 2017-07-05 Since 1900 the connections between art and technology with nature have become increasingly inextricable Through a selection of innovative readings by international scholars this book presents the first investigation of the intersections between art technology and nature in post medieval times Transdisciplinary in approach this volume s 14 essays explore art technology and nature s shifting constellations that are discernible at the micro level and as part of a larger chronological pattern Included are subjects ranging from Renaissance wooden dolls science in the Italian art academies and artisanal epistemologies in the followers of Leonardo to Surrealism and its precursors in Mannerist grotesques and the Wunderkammer eighteenth century plant printing the climate and its artistic presentations from Constable to Olafur Eliasson and the hermeneutics of bioart In their comprehensive introduction editors Camilla Skovbjerg Paldam and Jacob Wamberg trace the Kantian heritage of radically separating art and technology and inserting both at a distance to nature suggesting this was a transient chapter in history Thus they argue the present renegotiation between art technology and nature is reminiscent of the ancient and medieval periods in which art and technology were categorized as aspects of a common area of cultivated products and their methods the Latin ars the Greek techne an area moreover supposed to imitate the creative forces of nature **Influx and Efflux** Jane Bennett, 2020-05-22 In *influx efflux* Jane Bennett pursues a question that was bracketed in her book *Vibrant Matter* how to think about human agency in a world teeming with powerful nonhuman influences *Influx efflux* a phrase borrowed from Whitman s *Song of Myself* refers to everyday movements whereby outside influences enter bodies infuse and confuse their organization and then exit themselves having been transformed into something new How to describe the human efforts involved in that process What kinds of I and we can live well and act effectively in a world of so many other lively materialities Drawing upon Whitman Thoreau Caillois Whitehead and other poetic writers Bennett links a nonanthropocentric model of self to a radically egalitarian pluralism and also to a syntax and style of writing appropriate to the entangled world in which we live The book tries to enact the uncanny process by which we write up influences that pervade enable and disrupt us *The SAGE Encyclopedia of the Sociology of Religion* Adam Possamai, Anthony J. psychological orientation is explored through a structural analysis of *Tristes Tropiques* his most personal book and his writings on art nature and civilization and through a consideration of his debt to Rousseau Dr Pace examines in depth L vi Strauss s critique of cultural evolutionism and his attack on the notion of world history He assesses the political implications of L vi Strauss s own interpretation of human progress through an examination of his debates with Sartre and other Marxists in the 1950s and 1960s and his subsequent movement to the right The author s concern throughout is to place the world view of this great French anthropologist in the context of twentieth century intellectuals struggle to come to grips with cultural relativism and the problem of the primitive **Routledge Library Editions: Social and Cultural Anthropology**
