Roger II Of Sicily 1095 1154 A Ruler Between East And West:

Roger II of Sicily Hubert Houben, 2002-04-04 Although many studies have addressed important aspects of medieval southern Italy this was the first work for nearly ninety years to be devoted specifically to the life and reign of King Roger II the founder of the kingdom of Sicily The book provides a comprehensive introductory narrative of the reign and a clear scholarly analysis of its culture and of the development of royal government The kingdom created by the Norman Roger of Hauteville in the first half of the twelfth century was a monarchy with highly developed absolutist ideas an elaborate bureaucracy a reasonably well filled treasury and a mixed cultural heritage reflected by the presence of Arabs and Greeks at court Based on many years of research in archives and libraries across Europe the book offers a valuable overview of one of the most striking periods in south Italian and European history *Medieval Self-Coronations* Jaume Aurell, 2020-06-11 Based on narrative iconographical and liturgical sources this is the first systematic study to trace the story of the ritual of royal self coronations from Ancient Persia to the present Exposing as myth the idea that Napoleon's act of self coronation in 1804 was the first extraordinary event to break the secular tradition of kings being crowned by bishops Jaume Aurell vividly demonstrates that self coronations were not as transgressive or unconventional as has been imagined Drawing on numerous examples of royal self coronations with a particular focus on European Kings of the Middle Ages including Frederic II of Germany 1229 Alphonse XI of Castile 1328 Peter IV of Aragon 1332 and Charles III of Navarra 1390 Aurell draws on history anthropology ritual studies liturgy and art history to explore royal self coronations as privileged sites at which the frontiers and limits between the temporal and spiritual politics and religion tradition and innovation are encountered **Nubia, Ethiopia, and the Crusading World, 1095-1402** Adam Simmons, 2022-09-16 The Crusades had a wide variety of impacts on societies throughout Europe Asia and Africa One such notable impact was its role in the development of knowledge between cultures This book argues that the Nubian kingdom of Dotawo and the Latin Christians became increasingly more connected between the twelfth and early fourteenth centuries than has been acknowledged Subsequently when Solomonic Ethiopian Latin Christian diplomatic relations began in 1402 they were building on the prior connections of Nubia either wittingly or unwittingly Ethiopia became the Ethiopia that the Latin Christians had previously been aiming to develop relations with The histories of Nubia Ethiopia and the Crusades were directly and indirectly entwined between the twelfth century and 1402 By placing Nubia and Ethiopia within the wider context of the Crusades new perspectives can be made regarding the international activity of Nubia and Ethiopia between the twelfth and fifteenth centuries and the regional role reversal of Dotawo and Solomonic Ethiopia from the early fourteenth century Prior to the fourteenth century Nubia had been the dominant Christian power in the region before Solomonic Ethiopia began to replace it including by adopting elements of discourse which had previously been attributed to Nubia such as its ruler being the recognised protector of the Christians of north east Africa This process should not be viewed in isolation of the wider regional geo political context Nubia Ethiopia and

the Crusading World 1095 1402 will appeal to all those interested in the history of the Crusades Nubia and Ethiopia particularly concerning inter regional physical and intellectual connectivity **Creating the Mediterranean** Tarek Kahlaoui,2018-01-16 In Creating the Mediterranean Maps and the Islamic Imagination Tarek Kahlaoui treats the subject of the Islamic visual representations of the Mediterranean It tracks the history of the Islamic visualization of the sea from when geography was created by the Islamic state s bureaucrats of the tenth century C E located mainly in the central Islamic lands to the later men of the field specifically the sea captains from the fourteenth to the sixteenth centuries C E located in the western Islamic lands A narrative has emerged from this investigation in which the metamorphosis of the identity of the author or mapmaker seemed to be changing with the rest of the elements that constitute the identity of a map its reader or viewer its style and structure and its textual content The Oxford Dictionary of the Middle Ages Robert E. Bjork,2010-06-24 The Oxford Dictionary of the Middle Ages is an outstanding resource for anyone studying or with an interest in all aspects of European history society religion and culture from 500 to 1500 Its 5 000 plus entries written by over 800 international scholars provide uniquely broad balanced and authoritative coverage of the period **The Crusades** Alan V. Murray,2006-08-30 The first multivolume encyclopedia to document the history of one of the most influential religious movements of the Middle Ages the Crusades The Crusades An Encyclopedia surveys all aspects of the crusading movement from its origins in the 11th century to its decline in the 16th century Unlike other works which focus on the eastern Mediterranean region this expansive four volume encyclopedia also includes the struggle of Christendom against its enemies in Iberia Eastern Europe and the Baltic region and also covers the military orders crusades against fellow Christians heretics and more This work includes comprehensive entries on personalities such as Godfrey of Bouillon who refused the title King of Jerusalem and St Bernard of Clairvaux who tore up his own clothing to make symbols of the cross for crusaders as well as key events countries places and themes that shed light on everything from the propaganda that inspired crusading warriors to the ways in which they fought Special coverage of topics such as taxation pilgrimage warfare chivalry and religious orders give readers an appreciation of the multifaceted nature of these holy wars **Europe's Long Twelfth Century** John D. Cotts,2012-11-09 Between 1095 and 1229 Western Europe confronted a series of alternative cultural possibilities that would fundamentally transform its social structures its intellectual life and its very identity It was a period of difficult decisions and anxiety rather than a triumphant renaissance In this fresh reassessment of the twelfth century John D Cotts Shows how new social economic and religious options challenged Europeans to re imagine their place in the world Provides an overview of political life and detailed examples of the original thought and religious enthusiasm of the time Presents the Crusades as the century s defining movement Ideal for students and scholars alike this is an essential overview of a pivotal era in medieval history that arguably paved the way for a united Europe **Classica Et Beneventana** Frank T. Coulson,Anna A. Grotans,2008 The Festschrift volume Classica et Beneventana presented to Virginia Brown on the occasion of her 65th

birthday brings together twenty one insightful new essays by leading scholars devoted to the fields of classical reception and Latin palaeography The authors investigate a wide range of topics such as the development and application of the Beneventan script comparative codicology uses of early liturgical manuscripts medieval artes and biblical texts and their readers and the reception and dissemination of classical texts during the Italian Renaissance Since 1970 Virginia Brown has been a Senior Research Fellow at the Pontifical Institute of Mediaeval Studies She is recognized as one of the world s leading authorities in classical reception and Latin palaeography Her numerous publications on the Beneventan script have dramatically altered our knowledge of the dissemination of this southern Italian book hand from 800 to 1600 Her editorial work for the *Catalogus translationum et commentariorum* as a member of the Editorial Board and since 1985 as Editor in Chief has resulted in several learned volumes tracing the fortuna and study of classical authors from antiquity to the year 1600 As editor of *Mediaeval Studies* from 1974 to 1988 she single handedly produced tomes noted for their scholarly rigor and acumen This collection of essays serves as a fitting tribute to a scholar who via her scholarly research and editorial work has done so much to advance the fields of palaeography codicology and the history of classical scholarship [Italy](#)
