Rohm And Haas History Of A Chemical Company:

Corporate History and the Chemical Industries Jeffrey Louis Sturchio, 1985 Three essays on the historiography of the chemical process industries on business archives and on oral history in the corporate setting provide the context for extensive annotated bibliographies in the three areas

Rohm and Haas Regina Lee Blaszczyk, 2009 In 1909 German entrepreneur Otto Haas came to Philadelphia to sell Oropon an invention of his friend and business partner Dr Otto Rohm for use in transforming goatskins into kid leather A century later Rohm and Haas is a global leader in providing advanced chemicals that enhance the performance of consumer goods from fast drying water based paints to sunscreens with greater SPF functionality and more powerful semiconductor chips In Rohm and Haas A Century of Innovation business historian Regina Lee Blaszczyk examines the 100 year history of this Philadelphia based chemical company which has long stressed the importance of connecting with the customer Based on interviews with top executives and research in the firm s corporate archives the book explores how Rohm and Haas developed its commitment to customer service growing from a family firm with transatlantic connections into one of the world s leading specialty chemical companies From its founding the firm s interactions with different types of customers tanneries in industrial Philadelphia the U S Army and Navy air forces during World War II European agriculturalists during the Marshall Plan and the contemporary electronics industry in Asia have facilitated innovation generated products that improved everyday life and led to global growth

A History of the International Chemical Industry Fred Aftalion, 2001 Fred Aftalion s international perspective of the history of chemistry integrates the story of chemical science with that of chemical industry This new edition includes events from 1990 to 2000 when major companies began selling off their divisions seeking to specialize in a particular business Aftalion explores the pitfalls these companies encountered as well as the successes of contrarians those companies that remained broad and diversified He uses BASF Dow and Bayer as examples of true contrarians

International Bibliography of Business History Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians

The Chemical Industry at the Millenium Peter H. Spitz, 2003 Examines how the chemical industry has been transformed over the past 20 years

The American Synthetic Organic Chemicals Industry Kathryn Steen, 2014-08-03 Prior to 1914 Germany dominated

the worldwide production of synthetic organic dyes and pharmaceuticals like aspirin When World War I disrupted the supply of German chemicals to the United States American entrepreneurs responded to the shortages and high prices by trying to manufacture chemicals domestically Learning the complex science and industry however posed a serious challenge This book explains how the United States built a synthetic organic chemicals industry in World War I and the 1920s Kathryn Steen argues that Americans intense anti German sentiment in World War I helped to forge a concentrated effort among firms the federal government and universities to make the United States independent of foreign chemicals Besides mobilization efforts to make high explosives and war gases federal policies included protective tariffs gathering and publishing market information and most dramatically confiscation of German owned chemical subsidiaries and patents Meanwhile firms and universities worked hard to develop scientific and manufacturing expertise Against a backdrop of hostilities and intrigue Steen shows how chemicals were deeply entwined with national and international politics and policy during the war and subsequent isolationism of the turbulent early twentieth century

Chemical Sciences in the Modern World Seymour H. Mauskopf, 2016-11-11 It would be difficult to overestimate the importance of the chemical sciences to the modern world In the last 150 years they have transformed our physical environment our material culture our manner of living and even our persons and they are continuing to do so in profound ways Yet the detailed and systematic study of the history of the modern chemical sciences has been relatively late in coming This compilation of essays by leading scholars represents the first fruits of modern historical scholarship The essays vary in form and content some represent detailed original research others are cast as synoptic blueprints for future research in major domains of scholarship still others are provocative reflections on the opportunities and challenges facing historians of chemical sciences and industries and their audiences The essays in Part One deal with the experimental generation of new chemical knowledge the nature of theories about chemical knowledge and the reception of new knowledge by the chemical community Part Two is devoted primarily to the development of modern industrial chemistry Part Three is concerned with preserving archives and artifacts owned by public and private institutions with making the history of chemistry accessible to persons interested but not trained in history and with helping both policymakers and the general public to understand the policy issues involving the chemical sciences and industries through the insights provided by historical research Part Four the concluding section discusses future prospects for the history of the chemical sciences addressing questions about methodology audience and new directions for research
