Benjamin Taylor, 2016-11-24

This book asks what are extreme television media and are they actually bad for American politics Taylor explores these questions and how these media affect political knowledge trust efficacy tolerance policy attitudes and political behaviors Using experiments and data from the National Annenberg Election Study this book shows how extreme media create both positive and negative externalities in American politics Many criticize these media because of their bombastic nature but bombast and affect also create positive effects for some consumers Previous research shows partisan media exacerbate polarization and those findings are taken further on immigration policy here However they also increase political knowledge increase internal efficacy and cause their viewers to engage in informal political behaviors like political discussion and advocacy The findings suggest there is much to be gained from these media market entrepreneurs and we should be wary of painting with too broad a brush about their negative effects **The Mass Media and the Dynamics of American Racial Attitudes**

Paul M. Kellstedt, 2003-08-04 Paul M Kellstedt explains the variation in Americans racial attitudes over the last half century particularly the relationship between media coverage of race and American public opinion on race The analyses reveal that racial policy preferences have evolved in an interesting and unpredicted if not unpredictable fashion over the past fifty years There have been sustained periods of liberalism where the public prefers an active government to bring about

racial equality and these periods are invariably followed by eras of conservatism where the public wants the government to stay out of racial politics altogether. These opinions respond to cues presented in the national media. Kellstedt then examines the relationship between attitudes on the two major issues of the twentieth century: race and the welfare state. **American Politics and Society** David McKay, 2009-04-06. *American Politics and Society* is a clear and concise introduction to US politics which explains, analyses and interprets the processes of US government and crucially appraises them from a non-US perspective. This completely revised new edition takes in the many changes which have occurred in US politics and explores the political and ideological polarization which some commentators see as a significant characteristic of US politics and society today. Engaging with such issues as the rapidly changing balance of support for the Democrats and Republicans and the continuing decline in the global reputation of the United States, the book provides an up-to-date survey of the views and criticisms of leading political commentators, including commentary on the 2008 presidential election. Written in an accessible style and packed with illustrations and pedagogical features, this book offers a fresh look at the social background to American political and economic life, the institutions and processes of government and the most recent and dramatic events in the political arena. Governing with the News Timothy E. Cook, 1998-02-17 From the opening decades of the republic when political parties sponsored newspapers to current governmental practices that actively subsidize the collection and dissemination of the news the press and the government have been far from independent Unlike those earlier days however the news is no longer produced by a diverse range of individual outlets but is instead the result of a collective institution that exercises collective power In explaining how the news media of today operate as an intermediary political institution akin to the party system and interest group system Cook demonstrates how the differing media strategies used by governmental agencies and branches respond to the constitutional and structural weaknesses inherent in a separation of powers system Cook examines the news media s capacity to perform the political tasks that they have inherited and points the way to a debate on policy solutions in order to hold the news media accountable without treading upon the freedom of the press
