*The Resurgence of Parish Council Powers in England* Alistair Jones, 2020-06-10 Parish councils are often underappreciated and undervalued in what they do even though they are an essential part of the governing of

England today In spite of this the number of parish councils and the roles they perform are increasing This book explores the reasons for this apparent resurgence in parish councils Some of it is a response to local demand especially with the impact of austerity on local government as a whole At the same time austerity measures have seen moves to much larger units of local government Again the demand for a more local tier of government has resulted in the creation of new parish councils There is a huge caveat and this is in relation to capacity Do these new councils have the capacity to deliver the services demanded of them OECD Multi-level Governance Studies Making Decentralisation Work in Chile Towards Stronger Municipalities OECD,2017-09-19 This report provides a comprehensive analysis of the challenges confronting Chile s centralised growth model and recommendations towards developing a more integrated territorial approach HMSO Annual Catalogue Great Britain.
