Say To This Mountain:

The Original Gospel of Thomas in Translation April D. DeConick, 2007-09-01 An enigmatic collection of 114 sayings of Jesus the Gospel of Thomas was discovered in the sands of Nag Hammadi Egypt in the 1940 s Here April DeConick provides a new English translation of the entire Gospel of Thomas which includes the original kernel of the Gospel and all the sayings Whilst most other translations are of the Coptic text with only occasional reference to the Greek fragment variants this translation integrates the Greek and offers new solutions to complete the lacunae A unique feature of this book is that translations to the parallels of the Gospel are also included Since its discovery scholars and the public alike have been intrigued to know what the Gospel says and what light it sheds on the formation of early Christianity In Recovering the Original Gospel of Thomas April DeConick argued that the gospel was a rolling corpus a book of sayings that grew over time beginning as a simple written gospel containing oracles of the prophet Jesus As the community faced various crises and constituency changes including the delay of the Eschaton and the need to accommodate Gentiles within the group its traditions were reinterpreted and the sayings in their gospel updated accommodating the present experiences of the community This volume was originally published in hardback as volume 287 in the Journal for the Study of the New Testament Supplement series and is part of the Early Christianity in Context subseries

An Epic Tale of the People of the Covenant (The origin of Christianity) Atsushi Murakami, 2021-02-26 Last year 2019 I published the 6th edition of my book The Origin of Christianity with the subtitle An Epic Tale of the People of the Covenant paying attention to the fact that Christianity was born from the church movement that had occurred in the process of the people of the Covenant scattered all over the world after they had migrated from the Fertile Crescent at the mouths of the Tigris and Euphrates rivers to the Promised Land Canaan However later it became clear that the Ephraim and Manasseh only who possess the genetic characteristics of Paleo Mongoloid among the twelve tribes of Israel played an important role not only in the conquest of Canaan but also in the eastern transmission of Christianity Thus this time I deliver this 7th edition with the main title of An Epic Tale of the People of the Covenant In creating the augmented part of the 7th edition I got many hints from the blog of Protestant Bible commentator Mr Arimasa Kubo who was the first pastor of the Ikebukuro Nishi Church and used them as the reference December 2020 Atsushi Murakami

a careful examination of ten names given Christ in the Scriptures the book reflects elements of Augustinian Jewish and Islamic spirituality that were part of sixteenth century Spain Luis de Le n was born in 1527 in Belmonte a small village in the Castile region of Spain An Augustinian friar a brilliant professor an artful poet he was a true Renaissance man whose vision of the fullness of Christ sustained him in the face of persecution at the hands of the Inquisition and infused his writing with a sensitivity that has made The Names of Christ a treasure of Spanish literature and a classic of Catholic mysticism
