Horowitz,U. Heo,A. Tan,2007-02-05 This book examines the changing national identities that are transforming East Asia pushing China and Taiwan apart and toward a showdown while propping up a weakened North Korea Accomplished contributors analyze the dynamics and the U S s policy response **Patriotism and Nationalism in Music Education** David G. Hebert,Alexandra Kertz-Welzel,2016-05-13 Music has long served as an emblem of national identity in educational systems throughout the world Patriotic songs are commonly considered healthy and essential ingredients of the school curriculum nurturing the respect loyalty and good citizenship of students But to what extent have music educators critically examined the potential benefits and costs of nationalism Globalization in the contemporary world has revolutionized the nature of international relationships such that patriotism may merit rethinking as an objective for music education The fields of peace studies and education for international understanding may better reflect current values shared by the profession values that often conflict with the nationalistic impulse This is the first book to introduce an international dialogue on this important theme nations covered include Germany the USA South Africa Australia Finland Taiwan Singapore and Canada **The Taiwan Voter** Christopher Henry Achen,T. Y. Wang,2017-07-26 The Taiwan Voter examines the critical role ethnic and national identities play in politics utilizing the case of Taiwan Although elections there often raise international tensions and have led to military demonstrations by China no scholarly books have examined how Taiwan s voters make electoral choices in a dangerous environment Critiquing the conventional interpretation of politics as an ideological battle between liberals and conservatives The Taiwan Voter demonstrates in Taiwan the party system and voters responses are shaped by one powerful determinant of national identity the China factor Taiwan s electoral politics draws international scholarly interest because of the prominent role of ethnic and national identification While in most countries the many tangled strands of competing identities are daunting for scholarly analysis in Taiwan the cleavages are powerful and limited in number so the logic of interrelationships among issues partisanship and identity are particularly clear The Taiwan Voter unites experts to investigate the ways in

which social identities policy views and partisan preferences intersect and influence each other These novel findings have wide applicability to other countries and will be of interest to a broad range of social scientists interested in identity politics
