Munch, 2021-04-16 The history of modern design and architecture has seen many attempts to embrace and merge different art forms and to bring art into the framing of everyday life and the organisation of modern society in a process understood as total design or total architecture These attempts were historically based on the

romanticist idea of merging all art forms into a uniting and transgressing work of art mostly associated with but certainly not limited to Richard Wagner's theoretical writings and musical dramas This utopian dream of the Gesamtkunstwerk or Total Work of Art was intended both to bring unity to the people and to bring art into the everyday life of their homes as well as into factories cities and even modern media As a result the experiments ranged from music poetry and drama to architecture design visual communication and city planning These ideas of merging art forms into more immersive and transgressive installations or design interventions to change everyday life are widespread today but their complex and often problematic roots are mostly ignored Design and architecture have delivered some of the broadest and most influential experiments with the Gesamtkunstwerk from garden cities for workers and corporate identity design to the German AEG corporation

*Georg Jensen* Alison Fisher, 2018-01-01 This beautifully illustrated catalogue explores how Georg Jensen silver has expanded the boundaries of modern style changing the look of twentieth century homes and spreading Scandinavian design around the world *Design for Everyday Living* is the first scholarly treatment of Georg Jensen to approach the firm's output in an analytical way situating it in the context of twentieth century design history and focusing on the firm's unique evolution and global influence This book is geared to a wide audience of interested nonspecialists and design historians rather than to a narrower readership of silver collectors It is also innovative in that it focuses on the story of the firm rather than solely on the career of its founder The essays are all original and include a contribution from Thomas Thulstrup the leading expert on Georg Jensen silver The book also benefits from a close collaboration with the Jensen firm which has allowed us access to images and archival materials published here for the first time

**Prisoners of History** Keith Lowe, 2020-12-08 A look at how our monuments to World War II shape the way we think about the war by an award winning historian Keith Lowe an award winning author of books on WWII saw monuments around the world taken down in political protest and began to wonder what monuments built to commemorate WWII say about us today Focusing on these monuments *Prisoners of History* looks at World War II and the way it still tangibly exists within our midst He looks at all aspects of the war from the victors to the fallen from the heroes to the villains from the apocalypse to the rebuilding after devastation He focuses on twenty five monuments including The Motherland Calls in Russia the US Marine Corps Memorial in the USA Italy's Shrine to the Fallen China's Nanjing Massacre Memorial The Atomic Bomb Dome in Hiroshima the balcony at Yad Vashem in Jerusalem and The Liberation Route that runs from London to Berlin Unsurprisingly he finds that different countries view the war differently In monuments erected in the US Lowe sees triumph and patriotic dedications to the heroes In Europe the monuments are melancholy ambiguous and more often than not dedicated to the victims In these differing international views of the war Lowe sees the stone and metal expressions of sentiments that imprison us today with their unchangeable opinions Published on the 75th anniversary of the end of the war *Prisoners of History* is a 21st century view of a 20th century war that still haunts us today

*The Spirit of Vitalism* Gertrud Hvidberg-Hansen, Gertrud Oelsner, 2011 This richly illustrated book outlines the strong Vitalistic movement in Denmark during the period 1890 1940 This movement emerged as a response to the rationalism and one sided intellectualism of a rigid bourgeois or decadent culture of the 19th century It constituted a number of cultural currents that were manifested in philosophy art and everyday life with an emphasis on the energy of youth the dynamic personality and the potential of the body Viewed in the wider perspective the aim of Vitalism s cult of the body was a revitalization that was to benefit not only the individual human being but the whole of culture Although the Vitalistic themes emanated from modern life they also drew artistic sustenance from Nordic mythology and Greek antiquity which served as the most important ideals in the modern pursuit of both physical and spiritual beauty Additionally the book highlights the prevalence of the interest in health and exercise and an increased attentiveness to hyg
