Crafts and Social Networks in Viking Towns Stephen P. Ashby,Søren Sindbaek,2020-02-19 Crafting Communities explores the interface between craft communication networks and urbanization in Viking age Northern Europe Viking period towns were the hubs of cross cultural communication of their age and innovations in specialized crafts provide archaeologists with some of the best evidence for studying this communication The integrated results presented in these papers have been made possible through the sustained collaboration of a group of experts with complementary insights into individual crafts

Results emerge from recent scholarly advances in the study of artifacts and production first the application of new analytical techniques in artifact studies e g metallographic isotopic and biomolecular techniques and second the shifted in interpretative focus of medieval artifact studies from a concern with object function to considerations of processes of production and of the social agency of technology Furthermore the introduction of social network theory and actor network theory has redirected attention toward the process of communication and highlighted the significance of material culture in the learning and transmission of cultural knowledge including technology The volume brings together leading UK and Scandinavian archaeological specialists to explore crafted products and workshop assemblages from these towns in order to clarify how such long range communication worked in pre modern Northern Europe Contributors assess the implications for our understanding of early towns and the long term societal change catalysed by them including the initial steps towards commercial economies Results are analyzed in relation to social network theory social and economic history and models of communication setting an agenda for further research *Crafting Communities* provides a landmark statement on our knowledge of Viking Age craft and communication *Scandinavian Christmas Cut-N-Make Book* Anneke Lipsanen,2017-11-24 The Anni Arts Scandinavian Christmas printable crafts are now available in a Cut n Make Book Easy pre printed paper crafts in full colour are ready to cut glue and make No need to print Folksy Scandinavian Holiday clip art for handmade cards paper crafts delightful little gifts and decor for Jul celebrations have the traditional look of Scandi folk art The original watercolour illustrations for these crafts were done in the style of painted Scandinavian folk toy horses The look was extended to items and craft elements not usually associated with this style an elk reindeer julbock Christmas tree and braids The crafts have instructions on the printed pages themselves and there is a section with general instructions and tips too However the crafts are so easy that non English crafters will also be able to make them without the need for the instructions Only the most basic craft equipment is needed scissors glue a paper scorer and hole punch are sufficient The crafts are beautifully designed to form a coordinated series and small elements can be applied in a mix and match manner The Scandinavian Christmas designs are also available as digi downloads are on craft CDs or USBs as well as on fun holiday products God Jul *Super Simple Scandinavian Art: Fun and Easy Art from Around the World* Alex Kuskowski,2014-08-15 Learn all about Scandinavia on an art adventure and introduce kids to culture with a creative twist Super Simple Scandinavian Art includes enjoyable and unique crafts adapted from Scandinavia just for kids They will learn to make a cool headband fold up some Dutch tulips create a Viking ship and more Step by step activities presented with how to photos make following along easy for young crafters Go on a cultural art adventure today Aligned to Common Core standards and correlated to state standards Super Sandcastle is an imprint of Abdo Publishing a division of ABDO **Scandinavian Crafts and Design** Art Gallery of Western Australia,1987 *Nordic Design Cultures in Transformation, 1960-1980* Kjetil Fallan,Christina Zetterlund,Anders V. Munch,2022-08-30 Covering the 1960s and 1970s this volume explores new ways of

investigating comparing and interpreting the different domains of design culture across the Nordic countries Challenging the traditional narrative this volume argues that the roots of the most prominent features of Nordic design s contemporary significance are not to be found amongst the objects for the home collectively branded as Scandinavian Design to great acclaim in the 1950s but in the discourses institutions and practices formed in the aftermath of that oft told success story during the turbulent period between 1960 and 1980 This is achieved by employing multidisciplinary approaches to connect the domains of industrial production marketing consumption public institutions design educations trade journals as well as public debates and civic initiatives forming a design culture This book makes a significant contribution to current international agendas of historiographical critique focusing on transnational relations and the deconstruction of national design histories This book will be of interest to scholars in design design history and Scandinavian studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
