Stewart P. Oakley. *Scandinavian History, 1520-1970: A List of Books and Articles in English*. The Historical Association, London, 1984. Pp. 232.

More than a decade has passed since I attended my first "book party." The host had chosen to display several recent publications by his colleagues, but most of the conversation focused on a dust jacket to which there was affixed a short, hand-written note: "Contents removed—Not a real book." This less-than-real work was actually a very competent bibliography of recent literature on a topic that even the pugnacious host believed was of considerable significance; in fact, he acknowledged that he had found it useful in his own research. But he—and many others at the party—made an unbridgeable distinction between writing a scholarly work and compiling a bibliography, according higher status to the former while lumping the latter among the "menial support services" of academia. Although I have heard no anecdote on the subject that rivals mine in brazen, callous insensitivity, pejorative views of the bibliographer's accomplishments often surface when scholars meet, particularly if merit raises and promotions are at issue. Every job has its drawbacks; such moments with such people are among the most painful I have experienced.

Thankfully, most of us engaged in Scandinavian studies have learned to value the activity of those who produce bibliographies, annotated editions of original works, and translations, possibly because many of us have found ourselves wearing several such hats in the course of our own careers as academics. The legitimate criterion of distinction should be the quality of the work produced, whatever form it may take, and the bibliographical list of articles and books in *English on Scandinavian History, 1520-1970*, compiled by Stewart P. Oakley, is a quality product. Oakley has organized his book into six major parts, one listing sources covering several centuries, the other five devoted to a century each. Rubrics group material by country (Denmark, Finland, Iceland, Norway, and Sweden), as well as Scandinavia for the multi-national literature. Within the rubrics are subsections on general and political issues, socio-economic, cultural, and more particular periods and topics. Oakley has also included an author index; the organizational structure obviates the need for a subject index.

A work of such scope is bound to be uneven. The literature itself has limitations, particularly (as Oakley points out) with respect to the sixteenth century for all of Scandinavia and for Denmark in every century. The editor has also made choices to exclude certain materials. While it seems reasonable not to list brief reviews and English summaries of books on any topic and to ignore travel accounts, except for those of historical value from prior centuries, other exclusions are puzzling. Oakley omits all accounts written by contemporaries and all biographies written while the subject still lived. He also leaves out of the bibliography any reference to children's literature, although the topic holds considerable interest for many intellectual historians. The omission of references to studies of the work (as distinct from the lives) of "cultural personalities" should also reduce the bibliography's usefulness for students of Scandinavian cultural and intellectual history. Oakley's commentary on particular citations is minimal, uncomprehensive, but often keen when provided. Placement of commentary at the end of each subsection makes for some awkward backtracking, especially since citations are discussed in terms of their serial numbers in the bibliography rather than by author or short title.

In spite of these limitations, Oakley's bibliography will prove very useful for a diverse audience. It should be especially helpful in teaching institutions where students who lack
