American Scenic Design and Freelance Professionalism David Bisaha, 2022-11-29 An inclusive history of the professionalization of American scenic design The figure of the American theatrical scenic designer first emerged in the early twentieth century As productions moved away from standardized painted scenery and toward individualized scenic design the demand for talented new designers grew Within decades scenic designers reinvented themselves as professional artists They ran their own studios proudly displayed their names on Broadway playbills and even appeared in magazine and television profiles American Scenic Design and Freelance Professionalism tells the history of the field through the figures institutions and movements that helped create and shape the profession Taking a unique sociological approach theatre scholar David Bisaha examines the work that designers performed outside of theatrical productions He shows how figures such as Lee Simonson Norman Bel Geddes Jo Mielziner and Donald Oenslager constructed a freelance professional identity for scenic designers by working within their labor union United Scenic Artists Local 829 generating self promotional press building university curricula and volunteering in wartime service However while new institutions provided autonomy and intellectual property rights for many women queer and Black designers were not always welcome to join the organizations that protected freelance designers interests Among others Aline Bernstein Emeline Roche Perry Watkins Peggy Clark and James Reynolds were excluded from professional groups because of their identities They nonetheless established themselves among the most successful designers of their time Their stories expand the history of American scenic design by showing how professionalism won designers substantial benefits yet also created legacies of exclusion with which American theatre is still reckoning

The Poetics of Stage Space Bruce A. Bergner, 2013-05-11 This book analyzes theatre scene design through the powers and characteristics of physical space Physical space is central to creative composition in the theatre but the author extends the reach of the book to individuals concerned with spatial design architects interior designers industrial designers artists and other performers A theory is presented on how design and its creative process echo the process of human awareness and action The book covers an array of considerations for the theatre designer the observable features of given physical spaces their layout detailing and atmosphere and presents these features from the points of view of various disciplines There are chapters on the physics of space the geography of space and the music of space The author also speaks to the less tangible qualities sensed more personally such as the spirituality or the psyche of space A discussion of the collaborative process of creating space is included Instructors considering this book for use in a course may request an examination copy here

Reviewing **Scene Design**: Unlocking the Spellbinding Force of Linguistics
