The Scent of the Gods Fiona Cheong, 2010-10-01 The Scent of the Gods tells the enchanting haunting story of a young girl's coming of age in Singapore during the tumultuous years of its formation as a nation Eleven year old Su Yen bears witness to the secretive lives of grown ups in her diasporic Chinese family and to the veiled threats in Southeast Asia during the Cold War years From a child's limited perspective the novel depicts the emerging awareness of sexuality in both its beauty and its consequences especially for women In the context of postcolonial politics Fiona Cheong skillfully parallels the uncertainties of adolescence with the growing paranoia of a population kept on alert to communist infiltration In luminous prose the novel raises timely questions about safety protection and democracy and what one has to give up to achieve them Ideal for students and scholars of Asian American and transnational literature postcolonial history women's studies and many other interconnected disciplines this special edition of The Scent of the Gods includes a contextualizing introduction a chronology of historical events covered in the novel and explanatory notes *The Underground Stream* Velda Johnston, 1991

The Scent of Ancient Magic Britta K. Ager, 2022-04-27 Magic was a fundamental part of the Greco Roman world Curses erotic spells healing charms divination and other supernatural methods of trying to change the universe were everyday methods of coping with the difficulties of life in antiquity While ancient magic is most often studied through texts like surviving Greco Egyptian spellbooks and artifacts like lead curse tablets for a Greek or Roman magician a ritual was a rich sensual experience full of unusual tastes smells textures and sounds bright colors and sensations like fasting and sleeplessness Greco Roman magical rituals were particularly dominated by the sense of smell both fragrant smells and foul odors Ritual practitioners surrounded themselves with clouds of fragrant incense and perfume to create a sweet and inviting atmosphere for contact with the divine and to alter their own perceptions they also used odors as an instrumental weapon to attack enemies and command the gods Elsewhere odiferous herbs were used equally as medical cures and magical ingredients In literature scent and magic became intertwined as metaphors with fragrant spells representing the dangers of sensual perfumes and conversely smells acting as a visceral way of envisioning the mysterious action of magic The Scent of Ancient Magic explores the complex interconnection of scent and magic in the Greco Roman world between 800 BCE and CE 600 drawing on ancient literature and the modern study of the senses to examine the sensory depth and richness of ancient magic Author Britta K Ager looks at how ancient magicians used scents as part of their spells to put themselves in the right mindset for an encounter with a god or to attack their enemies through scent Ager also examines the magicians who appear in ancient fiction like Medea and Circe and the more metaphorical ways in which their spells are confused with perfumes and herbs This book brings together recent scholarship on ancient magic from classical studies and on scent from the interdisciplinary field of sensory studies in order to examine how practicing ancient magicians used scents for ritual purposes how scent and magic were conceptually related in ancient literature and culture and how the assumption that strong scents

convey powerful effects of various sorts was also found in related areas like ancient medical practices and normative religious ritual

Betrayal and Other Acts of Subversion Leslie Bow, 2011-10-16 Asian American women have long dealt with charges of betrayal within and beyond their communities Images of their disloyalty pervade American culture from the daughter who is branded a traitor to family for adopting American ways to the war bride who immigrates in defiance of her countrymen to a figure such as Yoko Ono accused of breaking up the Beatles with her seduction of John Lennon Leslie Bow here explores how representations of females transgressing the social order play out in literature by Asian American women Questions of ethnic belonging sexuality identification and political allegiance are among the issues raised by such writers as Jeanne Wakatsuki Houston Bharati Mukherjee Jade Snow Wong Amy Tan Sky Lee Le Ly Hayslip Wendy Law Yone Fiona Cheong and Nellie Wong Beginning with the notion that feminist and Asian American identity are mutually exclusive Bow analyzes how women serve as boundary markers between ethnic or national collectives in order to reveal the male based nature of social cohesion In exploring the relationship between femininity and citizenship liberal feminism and American racial discourse and women's domestic abuse and human rights the author suggests that Asian American women not only mediate sexuality's construction as a determiner of loyalty but also manipulate that construction as a tool of political persuasion in their writing The language of betrayal she argues offers a potent rhetorical means of signaling how belonging is policed by individuals and by the state Bow's bold analysis exposes the stakes behind maintaining ethnic feminist and national alliances particularly for women who claim multiple loyalties

Past Scents Jonathan Reinartz, 2014-03-30 In this comprehensive and engaging volume medical historian Jonathan Reinartz offers a historiography of smell from ancient to modern times Synthesizing existing scholarship in the field he shows how people have relied on their olfactory sense to understand and engage with both their immediate environments and wider corporal and spiritual worlds This broad survey demonstrates how each community or commodity possesses or has been thought to possess its own peculiar scent Through the meanings associated with smells osmologies develop what cultural anthropologists have termed the systems that utilize smells to classify people and objects in ways that define their relations to each other and their relative values within a particular culture European Christians for instance relied on their noses to differentiate Christians from heathens whites from people of color women from men virgins from harlots artisans from

aristocracy and pollution from perfume This reliance on smell was not limited to the global North Around the world Reinartz shows people used scents to signify individual and group identity in a morally constructed universe where the good smelled pleasant and their opposites reeked With chapters including Heavenly Scents Fragrant Lucre and Odorous Others Reinartz's timely survey is a useful and entertaining look at the history of one of our most important but least understood senses
