Edward Thomas: Prose Writings: A Selected Edition

Edna Longley, 2023-10-12 Edward Thomas can be seen as the most important poetry critic in the early twentieth century. Thomas was a prose writer before he was a poet. The Selected Edition of his prose and especially this volume shows that he was also a critic before he was a poet. His unusual literary career opens up key questions about the relation between poetry and criticism as well as between poetry and prose. Thomas wrote books about poetry but his criticism mainly took the form of reviews. He reviewed collections, editions and studies of poetry most regularly for the Daily Chronicle and the Morning Post. These reviews amount to a unique commentary on the state of poetry and of poetry criticism after 1900. Since reviewing provided Thomas's main income, he also reviewed other kinds of book. Hence the sheer mass of his reviews, the stress he suffered as a literary journalist. Yet his criticism maintains an astonishingly high standard. Thomas's response to contemporary poetry intersects with his readings of older poetry. No critic or poet of the time was so deeply acquainted with the traditions of English language poetry or so alert to new poetic movements in Ireland and America. Edward Thomas's writings on poetry have a double importance. Besides suggesting the hidden evolution of his own aesthetic, they constitute a lost history and critique of poetry before the Great War. They change our assumptions about that period. Thomas's perspectives on poets such as Yeats, Hardy, Frost, Lawrence and Pound illuminate the making of modern poetry.

Selected Letters of Fletcher (c), *Ezra Pound and the Appropriation of Chinese Poetry* Ming Xie, 2021-12-12 First published in 1999. The subject of this book is the translation and appropriation of Chinese poetry by some English and American writers in the early decades of this century. The author explores the concerns as much with English translation of Chinese poetry per se as with the relationship between this body of translation from the Chinese and the developing poetics and practices of what is usually referred to as Imagism as much with the question of historical influence or ascription as with certain interpretive and critical aspects of this correlative relationship. Focusing on the direct influence of Chinese poetry upon the theory and practice of Imagism, attributing to Imagist poets in general and Ezra Pound in particular the perception in Chinese poetry of the essential qualities and principles for rejuvenating English poetry in the early decades of the century.

Agenda William Cookson, 1994

The Modern Portrait Poem Frances Dickey, 2012 In bridging historical periods, national boundaries and disciplinary distinctions, Dickey makes a case for the continuity of this genre over the Victorian/Modernist divide and from Britain to the United States in a time of rapid change in the arts.

The Penguin Book of the Prose Poem Jeremy Noel-Tod, 2018-11-29 A wonderful book, an invigorating revelation. An essential collection of prose poems from across the globe by old masters and new reveals the form's astonishing range. Kate Kellaway, Observer. A superb anthology, it is hard to know how it could possibly be bettered. Daily Telegraph. This is the prose poem, a genre with an oxymoron for a name, one of literature's great open secrets and the home for over 150 years of extraordinary work by many of the world's most beloved

writers This uniquely wide ranging anthology gathers essential pieces of writing from every stage of the form s evolution beginning with the great flowering of recent years before moving in reverse order through the international experiments of the 20th century and concluding with the prose poem s beginnings in 19th century France Edited with an introduction by Jeremy Noel Tod **Small Press Record of Books in Print** Len Fulton,1994 **Prospice** ,1987 The Literature of Connection David Trotter,2020-06-10 This book is about some of the ways in which the world got ready to be connected long before the advent of the technologies and the concentrations of capital necessary to implement a global network society It investigates the prehistory not of the communications revolution brought about by advances in electronic digital computing from 1950 onwards but of the principle of connectivity which was to provide that revolution with its justification and rallying cry Connectivity s core principle is that what matters most in any act of telecommunication and sometimes all that matters is the fact of its having happened During the nineteenth century the principle gained steadily increasing traction by means not only of formal systems such as the telegraph but of an array of improvised methods and signalling devices These methods and devices fulfilled not just an ever more urgent need but a fundamental recurring desire for near instantaneous real time communication at a distance Connectivity became an end in itself a complex vivid unpredictable romance woven through the enduring human desire and need for remote intimacy Its magical enhancements are the stuff of tragedy comedy satire elegy lyric melodrama and plain description of literature in short The book develops the concepts of signal medium and interface to offer in its first part an alternative view of writing in Britain from George Eliot and Thomas Hardy to D H Lawrence Hope Mirrlees and Katherine Mansfield and in its second case studies of European and African American fiction and of interwar British cinema designed to open the topic up for further enquiry
