This technology which includes multimedia speech video and graphics and telecommunications offers new hope to those who have failed in paper pencil educational activities. The report estimates that at least 35 million adults have difficulties with common literacy skills. Over 80 charts, tables and photos. Glossary Yearbook of International Organizations 2002-2003 Union of International Associations, 2003-03 **The Education Index**, 1988 *Dyslexia Training Program. What Works Clearinghouse Intervention Report* What Works Clearinghouse (ED), 2010 The Dyslexia Training Program developed at the Texas Scottish Rite Hospital for Children is a Tier III reading intervention program that provides intensive phonics instruction to children with dyslexia primarily in grades two through five. It is a comprehensive two year program that bridges the gap for school districts in which a trained dyslexia therapist or appropriately trained teacher is not available. The video series offers classroom instruction while an onsite facilitator provides attention to individual needs and observes progress in the classroom. The program teaches reading and spelling through multisensory lessons with a strong emphasis on phonemic awareness and alphabetic code knowledge. However, no studies of the Dyslexia Training Program that fall within the scope of the Students with Learning Disabilities review protocol meet What Works Clearinghouse WWC evidence standards. The lack of studies meeting WWC evidence standards means that at this time the WWC is unable to draw any conclusions based on research about the effectiveness or ineffectiveness of the Dyslexia Training Program on students with learning disabilities.
