Schnittke Reader:

A Schnittke Reader Alfred Schnittke, 2002-08-16 This compilation assembles previously published and unpublished essays by Schnittke and supplements them with an interview with cellist and scholar Alexander Ivashkin The book is illustrated with musical examples many of them in Schnittke's own hand In A Schnittke Reader the composer speaks of his life his works other composers performers and a broad range of topics in 20th century music The volume is rounded out with reflections by some of Schnittke's contemporaries

Performing Pain Maria Cizmic, 2012-01-12 Time after time people turn to music when coping with traumatic life events Music can help process emotions interpret memories and create a sense of collective identity In Performing Pain author Maria Cizmic focuses on the late 20th century in Eastern Europe as she uncovers music's relationships to trauma and grief The 1970s and 1980s witnessed a cultural preoccupation in this region with the meanings of historical suffering particularly surrounding the Second World War and the Stalinist era Journalists historians writers artists and filmmakers frequently negotiated themes related to pain and memory truth and history morality and spirituality during glasnost and the years leading up to it Performing Pain considers how works by composers Alfred Schnittke Galina Ustvolskaya Arvo Part and Henryk Gorecki musically address contemporary concerns regarding history and suffering through composition performance and reception Taking theoretical cues from psychology sociology and literary and cultural studies Cizmic offers a set of hermeneutic essays that demonstrate the ways in which people employ music in order to make sense of historical traumas and losses Seemingly postmodern compositional choices such as quotation fragmentation and stasis create musical analogies to psychological and emotional responses to trauma and grief and the physical realities of their embodied performance focus attention on the ethics of pain and representation Furthermore as film music these works participate in contemporary debates regarding memory and trauma A comprehensive and innovative study Performing Pain will fascinate scholars interested in the music of Eastern Europe and in aesthetic articulations of suffering

Alfred Schnittke's Concerto Grosso No. 1 Peter John Schmelz, 2019 Concerto Grosso no 1 is one of Alfred Schnittke's best known and most compelling works sounding the surface of late Soviet life while resonating with contemporary compositional currents around the world such as postmodernism It marked a decisive point in Schnittke's development of the approach he called polystylism which aimed to contain in a single composition the wide range of contemporary musical styles including jazz pop rock or serial music Thanks to it and his other similar compositions Schnittke became one of the most performed and most recorded living composers at the end of the twentieth century Peter J Schmelz's Alfred Schnittke's Concerto Grosso no 1 represents the first accessible and comprehensive study of this composition The novel structure of the book engages with the piece conceptually historically musically and phenomenologically with the six movements of the composition framing the six chapters Augmenting and complicating the insights of existing English Russian and German publications on the Concerto Grosso no 1 the book adds new information from underused primary sources including Schnittke's unpublished

correspondence and his many published interviews It engages further with his sketches for the piece and with contemporary Soviet musical criticism resulting in a more objective historical account of this rich multifaceted composition its influences and its impact on music making in the USSR and worldwide Arvo Pärt's Tabula Rasa Kevin Karnes,2017 The first book dedicated to the breakthrough work by one of the most acclaimed composers today Arvo Pärt's *Tabula Rasa* tells the story of its composition and premiere against the backdrop of late Soviet culture and the end of the Cold War *Such Freedom, If Only Musical* Peter J Schmelz,2009-03-04 Examining the construction and reception of the music produced in the Soviet Union between 1956 and 1974 in the period known as the Thaw this is the first book to draw upon interviews with musicians from the time as well as detailed analyses and archival materials **The Oxford Handbook of Faust in Music** Lorna Fitzsimmons,Charles McKnight,2019-07-08 Since its emergence in sixteenth century Germany the magician Faust's quest has become one of the most profound themes in Western history Though variants are found across all media few adaptations have met with greater acclaim than in music Bringing together more than two dozen authors in a foundational volume The Oxford Handbook of Faust in Music testifies to the spectacular impact the Faust theme has exerted over the centuries The Handbook's three part organization enables readers to follow the evolution of Faust in music across time and stylistic periods Part I explores symphonic choral chamber and solo Faust works by composers from Beethoven to Schnittke Part II discusses the range of Faustian operas and Part III examines Faust's presence in ballet and musical theater Illustrating the interdisciplinary relationships between music and literature and the fascinating tapestry of intertextual relationships among the works of Faustian music themselves the volume suggests that rather than merely retelling the story of Faust these musical compositions contribute significant insights on the tale and its unrivalled cultural impact Postmodernity's Musical Pasts Tina Frühauf,2020 Postmodernity's Musical Pasts covers topics from classical to popular and neo traditional musics to concerns of the disciplines of musicology Such varied topics mirror the eclectic and diverse nature of the postwar era itself **Performing Knowledge** Daphne Leong,2019 Performing Knowledge explores the relationship between musical performance and analysis through a unique collaboration between a music theorist and a cast of internationally renowned performers investigating major musical works of the twentieth century Ravel Schoenberg Bartók Schnittke Milhaud Messiaen Babbitt Carter and Morris The book is a brave crossing of disciplinary divides between scholarship and practice a theory text enlivened by the voices of performers who create interpret and articulate structure **Orchestration** Paul Mathews,2006 *Orchestration An Anthology of Writings* is designed to be a primary or ancillary text for college level music majors Although there are several how to textbooks aimed at this market there is little available that traces the history of orchestration through the writings of composers themselves By collecting writings from the nineteenth century to today Mathews illuminates how orchestration has grown and developed as well as presenting a wide variety of theories that have been embraced by the leading practitioners in the field The collection then traces the history of orchestration beginning with

Beethoven's Orchestra with writings by Berlioz Wagner Gounod Mahler and others the 19th century Mahler Gevaert Strauss the fin de siècle on the edge of musical modernism writings by Berlioz Jadassohn Delius and Rimsky Korsakov early modern Busoni Schoenberg Stravinsky Grainger and others and high modern Carter Feldman Reich Brant Many of these pieces have never been translated into English before some only appeared in small journals or the popular press and have never appeared in a book and none have ever been collected in one place The study of orchestration is a key part of all students of music theory and composition Orchestration provides a much needed resource for these students filling a gap in the literature

Analytical Approaches to 20th-Century Russian Music Inessa Bazayev, Christopher Segall, 2020-09-28 This volume brings together analyses of works by thirteen Russian composers from across the twentieth century showing how their approaches to tonality modernism and serialism forge forward looking paths independent from their Western counterparts Russian music of this era is widely performed and much research has situated this repertoire in its historical and social context yet few analytical studies have explored the technical aspects of these composers styles With a set of representative analyses by leading scholars in music theory and analysis this book for the first time identifies large scale compositional trends in Russian music since 1900 The chapters progress by compositional style through the century and each addresses a single work by a different composer covering pieces by Rachmaninoff Myaskovsky Prokofiev Shostakovich Mansurian Roslavets Mosolov Louri Tcherepnin Ustvolskaya Denisov Gubaidulina and Schnittke Musicians scholars and students will find here a starting point for research and analysis of these composers works and gain a richer understanding of how to listen to and interpret their music
