School For Soldiers West Point And The Profession Of Arms:

School for Soldiers Joseph J. Ellis, Robert Moore, 1974 *The Early Republic and Antebellum America* Christopher G. Bates, 2015-04-08 First Published in 2015 Routledge is an imprint of Taylor Francis an Informa company **Shades of Blue and Gray** Herman Hattaway, 2013-06-03 An introductory military history of the American Civil War *Shades of Blue and Gray* places the 1861-1865 conflict within the broad context of evolving warfare. Emphasizing technology and its significant impact, Hattaway includes valuable material on land and sea mines, minesweepers, hand grenades, automatic weapons, the Confederate submarine, and balloons. The evolution of professionalism in the American military serves as an important connective theme throughout. Hattaway extrapolates from recent works by revisionists William Skelton and Roy Roberts to illustrate convincingly that the development of military professionalism is not entirely a post-Civil War phenomenon. The author also incorporates into his work important new findings of recent scholars such as Albert Castel on the Atlanta Campaign, Reid Mitchell on soldiers' motivation, Mark Grimsley on hard war, Brooks D. Simpson on Ulysses S. Grant, and Lauren Cook Burgess on women who served as soldiers disguised as men. In addition, Hattaway comments on some of the best fiction and nonfiction available in his recommended reading lists, which will both enlighten and motivate readers. Informative and clearly written, enhanced by graceful prose and colorful anecdotes, *Shades of Blue and Gray* will appeal to all general readers.

Armor, 1975 The magazine of mobile warfare **Encyclopedia of Military Science** G. Kurt Piehler, 2013-07-24 The Encyclopedia of Military Science provides a comprehensive ready reference on the organization, traditions, training, purpose, and functions of today's military. Entries in this four-volume work include coverage of the duties, responsibilities, and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political, social, legal, economic, and technological factors. A large component is devoted to issues of leadership, group dynamics, motivation, problem solving, and decision making in the military context. Finally, this work also covers recent American military history since the end of the Cold War, with a special emphasis on peacekeeping and peacemaking operations, the First Persian Gulf War, the events surrounding 9/11, and the wars in Afghanistan and Iraq, and how the military has been changing in relation to these events.
