School Crime Violence Victims Rights:

School Crime & Violence James A. Rapp, 1986 While schools at one time appeared to be immune from criminal liability and courtroom litigation cases involving virtually every aspect of education have been or are currently in court at some level This monograph is designed to help school lawyers trial lawyers who represent victims of campus crimes and educators and administrators engaged in planning risk and liability prevention programs and campus crime prevention programs Issues discussed include 1 school crime the victims rights movement and the right to safe schools 2 victims rights litigation 3 classifications of litigation involving victims as victims victims against perpetrators and victims against third parties 4 schools as victims rights litigation defendants and the question of school immunity 5 claims for failure to protect against or prevent non student crime or violence 6 claims for failure to protect against or prevent student crime or violence including the possibility of negligence and 7 the various responsibilities of schools students parents and the community to provide safe schools Primary court citations and state and federal code provisions involving victims rights and safe schools are indexed PPB *Resources in Education* ,2000 *Youth Violence* I. M. Rachia, 1999 This bibliography comprises a selection of Library of Congress catalog records for some 1 500 books periodicals and websites related to youth violence Anyone wanting such a bibliography could probably compile it from the Library of Congress web site and the deficiencies in conception and design of this product defy understanding A brief preface sounds an alarm no one should be surprised that youth violence lurks behind every school house door but sets forth no criteria for selection of citations no indication of time frame purpose or audience Entries are arranged alphabetically by title within chapters on school violence guns and youth gangs campus violence dating and violence and periodicals and Web sites Unforgivably primitive alphabetic sorting puts all titles beginning with The together the same with other articles and in addition those titles are indexed together Though the title indicates the presence of abstracts there are none except the summaries supplied by Library of Congress for juvenile titles of which there are many Cross referencing and indexing except by title are absent The compiler s credentials motivation and orientation are not cited Furthermore with better design the contents would have consumed half the number of pages and a few typeface variations would have eased scanning Annotation copyrighted by Book News Inc Portland OR *New Directions from the Field* ,1998 *New Directions from the Field: Education Community* ,1998 **California.
