the more familiar images of the May festival the Mummers play and the pageant play which are tellingly re contextualised The book also looks at the associations between Vaughan Williams the theatre artist Edward Gordon Craig and the impresario Serge Diaghilev The sequence is framed by the image of the pilgrim vagabond Vaughan Williams s setting of the poetry of Matthew Arnold and Robert Louis Stevenson as a metaphor and paradigm for his creative career and personal progress The book not only sheds light on the activities and ambitions of principal agents but also illuminates a particularly dynamic moment in the re emergence of a distinctively English music theatrical practice one especially concerned with calling on aspects of the past to help to secure a worthwhile future Notions of Englishness turn out to be less insular than sometimes thought and the idea of a musical renaissance more complex when the case studies are understood in their proper historical context Scholars and students of twentieth century English music theatre and opera will find this volume indispensable Roger Savage is Honorary Fellow in English Literature at the University of Edinburgh He has published widely on theatre and its interface with music from the baroque to the twentieth century in leading journals and books **The Great War and Medieval Memory** Stefan Goebel, 2007-01-25 A comparative study of the cultural impact of the Great War on British and German societies Taking medievalism as a mode of public commemorations as its focus this book unravels the British and German search for historical continuity and meaning in the shadow of an unprecedented human catastrophe
