conflict particularly between the perspectives of those working within the industry and the civil servants working outside of it but the interviews are presented as a unit and the reader is encouraged to draw their own conclusion The result is a unique historical archive that offers a multitude of firsthand perspectives on the British shipping decline open to interpretation by historians and future researchers It includes a preface introduction and select bibliography The interviews are grouped together by location and role **Shipping World & Shipbuilder** ,1976 **Why are the British Bad at Manufacturing?**
