Bruton, 2012-12-06 **Marine Decapod Crustacea of Southern Australia** Gary CB Poore, 2004-08-13 This book is a comprehensive guide to the identification of 800 species of decapod and stomatopod crustaceans from southern Australian marine waters. Details for each species include the authority, year of description, sometimes a common name, diagnosis, size, geographical distribution and ecological and depth distribution. The chapter on the Stomatopoda is by Shane Ahyong. Sections within each chapter are hierarchical: species within genera within families, often with subfamilies as well. Identification is achieved through the use of dichotomous keys adapted from many originally published in the primary literature or developed from scratch. Some keys are to all Australian taxa but most are to southern Australian taxa only. The information in this book derives from over 200 years of collecting in southern Australian environments from the intertidal to the deep sea and publications in numerous journals in several languages. More than 800 of these papers and books are cited. Winner of the 2005 Whitley Award for Systematics.
