from the mythological viewpoint as dragons demons and witches we find them in rivers of fire in kingdoms at the bottom of the sea in talking animals and in endless transformations that defy human experience The same images mirror situations of everyday life the joys of love success in one s endeavors but also abandonment yearning for offspring loss of a sheltered existence as well as the many insurmountable tasks which confront us in life But the most significant of Jung s insights into the psyche is the realization that all such experiences rest upon an inner reality which needs to be understood symbolically This is where the archetypal nature of fairy tales is most relevant for it explains why people of all ages and all levels of society have been fascinated by them people often without much formal education gathered around a fire at the end of a hard day and gazing into the flames followed the images arising from the storyteller s words Today many have by and large lost the capacity for such experiences Children still do adults are often distracted by the demands of outer life And yet fairy tales retell fundamental experiences of life which are timeless Pirates, Ports, and Coasts in Asia John Kleinen,Manon
