Sea Island Roots African Presence In The Carolinas And Georgia:

Sea Island Roots Mary Arnold Twining, Keith E. Baird, 1988 **Low Country Gullah Culture, Special Resource Study**, 2003 *The African Presence in Black America* Jacob U. Gordon, 2004 Accepting the basic premise that Africa is the ancestral homeland of black Americans raises questions as to how much if any of African cultural heritage remains within that community Some claim that the severity of the plantation system and the acculturation process of the slaves could not have left any Africanism in the New World while others argue that African cultural heritage can still be seen today in many aspects of American life and thought This volume revisits the debate examining the ways in which this alleged cultural heritage manifests itself *The Gullah People and Their African Heritage* William S. Pollitzer, 2005-11-01 The Gullah people are one of our most distinctive cultural groups Isolated off the South Carolina Georgia coast for nearly three centuries the native black population of the Sea Islands has developed a vibrant way of life that remains in many ways as African as it is American This landmark volume tells a multifaceted story of this venerable society emphasizing its roots in Africa its unique imprint on America and current threats to its survival With a keen sense of the limits to establishing origins and tracing adaptations William S Pollitzer discusses such aspects of Gullah history and culture as language religion family and social relationships music folklore trades and skills and arts and crafts Readers will learn of the indigo and rice growing skills that slaves taught to their masters the echoes of an African past that are woven into baskets and stitched into quilts the forms and phrasings that identify Gullah speech and much more Pollitzer also presents a wealth of data on blood composition bone structure disease and other biological factors This research not only underscores ongoing health challenges to the Gullah people but also helps to highlight their complex ties to various African peoples Drawing on fields from archaeology and anthropology to linguistics and medicine *The Gullah People and Their African Heritage* celebrates a remarkable people and calls on us to help protect their irreplaceable culture *Gullah Geechee Muslims in America* Muhammad Fraser-Rahim, 2024-12-15 Through meticulous research interviews and documentation *Gullah Geechee Muslims in America* Exploring Islamic Identity in the African Diaspora presents a unique and significant contribution to religious studies Africana studies and anthropology by shedding light on a previously understudied aspect of the Gullah Geechee community and culture Previous studies of enslaved African Muslims have claimed that Islam as a conscious practice vanished by the eve of the Civil War However Muhammad Fraser Rahim highlights the continuity of Islamic belief and practice in the Lowcountry For scholars who have spent decades researching the retention of African culture among the enslaved and their descendants this book reveals certain challenges and poses new avenues of research **The Claims of Kinfolk** Dylan C. Penningroth, 2004-07-21 In *The Claims of Kinfolk* Dylan Penningroth uncovers an extensive informal economy of property ownership among slaves and sheds new light on African American family and community life from the heyday of plantation slavery to the freedom generation of the 1870s By focusing on relationships among blacks as well as on the more familiar

struggles between the races Penningroth exposes a dynamic process of community and family definition He also includes a comparative analysis of slavery and slave property ownership along the Gold Coast in West Africa revealing significant differences between the African and American contexts Property ownership was widespread among slaves across the antebellum South as slaves seized the small opportunities for ownership permitted by their masters While there was no legal framework to protect or even recognize slaves property rights an informal system of acknowledgment recognized by both blacks and whites enabled slaves to mark the boundaries of possession In turn property ownership and the negotiations it entailed influenced and shaped kinship and community ties Enriching common notions of slave life Penningroth reveals how property ownership engendered conflict as well as solidarity within black families and communities Moreover he demonstrates that property had less to do with individual legal rights than with constantly negotiated extralegal social ties

Exchanging Our Country Marks Michael A. Gomez,2000-11-09 The transatlantic slave trade brought individuals from diverse African regions and cultures to a common destiny in the American South In this comprehensive study Michael Gomez establishes tangible links between the African American community and its African origins and traces the process by which African populations exchanged their distinct ethnic identities for one defined primarily by the conception of race He examines transformations in the politics social structures and religions of slave populations through 1830 by which time the contours of a new African American identity had begun to emerge After discussing specific ethnic groups in Africa Gomez follows their movement to North America where they tended to be amassed in recognizable concentrations within individual colonies and later states For this reason he argues it is possible to identify particular ethnic cultural influences and ensuing social formations that heretofore have been considered unrecoverable Using sources pertaining to the African continent as well as runaway slave advertisements ex slave narratives and folklore Gomez reveals concrete and specific links between particular African populations and their North American progeny thereby shedding new light on subsequent African American social formation
