Sea Tales:

U.S. Army Sea Tales Walter L. Grey Jr.,2010-08-16 The army marine field is a little known part of the army by both the civilians and the many soldiers People think of the combat arms infantry armor and artillery and while they are the heart of the army there are other branches without which the combat arms would cease to be an effective fighting force Arguably the most important element ensuring that the combat arms have beans and bullets is the Transportation Corps The motto of the Transportation Corps is Spearhead of Logistics because Nothing happens until something moves In my years as an army mariner I have had many interesting and sometimes humorous experiences My experiences are nothing compared with those of other army mariners This book is not just about my experiences but of other sea going sailors as well Some of the stories are hilarious and I believe all are interesting The book is divided into three elements The heart of the book is the Sea Tales but Mr Richard Killblane the Army Transportation Corps historian graciously provided me with many fascinating interviews of army mariners conducted by personnel in his office The histories of many army watercraft companies are the final elements of the book and provides the reader with the differences of watercraft units and their missions I have found my own experience to be very interesting and rewarding I recall one day working on the engine room logbook sitting at the galley table and glancing out of the door at the water in Skiffs Creek and thinking of how fortunate I was to be sitting there and not working in an office I have had a wide variety of duties in my twenty two year career but nothing compares with working on the water I can relate to what Samuel Clemmons wrote in his book *Life on the Mississippi* For I loved the profession far better than any I have followed since I feel that says it all I am now retired but I have the memories of my experiences

James Fenimore Cooper: Sea Tales (LOA #54) James Fenimore Cooper, 1991-08-01. In *The Pilot* 1824 and *The Red Rover* 1828, James Fenimore Cooper invented a new literary genre, the sea novel. Collected here in a single Library of America volume, they are among his finest works. Bold, vigorous, original, each is a tale of high adventure that vividly captures the majesty and power of the seafaring life. Cooper drew on his direct knowledge of ships and sailors to present a truer picture of life on the sea than had ever before been achieved in literature. As a boy of seventeen, he had sailed before the mast on a merchantman bound from New York to London and then to Spain. On board, he experienced the life of a common seaman, learned the craft of sailing, encountered terrifying storms, was chased by pirates, and watched the impressment of crew members by a British man of war. He later served as an officer in the United States Navy. *The Pilot* is loosely based upon stories of John Paul Jones's daring hit-and-run tactics during the Revolutionary War. The shadowy hero, modeled on Jones, leads a squadron of the infant American navy in a series of raids on the English coast, braving fierce storms and the guns of hostile warships, yet never revealing his identity. In this novel, Cooper introduced the character of the old salt, the seasoned deckhand, happy only aboard ship. Long Tom Coffin, with his briny conversation and shrewd nautical advice, is the first of Cooper's memorable portraits of common seamen. A ghostly ship, an uncanny hero, a heroine kidnapped by pirates, revelations of mistaken identity, and the reunion of long-lost relatives: scenes of romance and adventure fill the pages of *The Red Rover*. Cooper's most theatrical novel, set in the mid-eighteenth century, the tale recounts the exploits of a noble outcast and visionary who foresees America's destiny as a sovereign nation. Forced into a life of piracy, the Rover conducts his private war of independence in a story that equates the free and daring life with the American dream of self-reliance and liberty from British rule.
