## **Seahenge A Quest For Life And Death In Bronze Age Britain:**

*Seahenge* Francis Pryor, 2008      *Seahenge* Francis Pryor, 2001 In the spring of 1998 a circle of prehistoric timbers exposed by the receding tide was found projecting from the sands of a Norfolk beach This site soon to become known as Seahenge would prove to be the most remarkable controversial and highly publicized archaeological find in Britain for many years The beach was known to eroding fast and the timbers were threatened with imminent destruction Something had to be done This book is the story of the operation to save the Seahenge timbers but more than that it is the story of the archaeologist Francis Pryor s personal quest in search of prehistoric Britain Book jacket      **Seahenge: a quest for life and death in Bronze Age Britain** Francis Pryor, 2012-06-21 A lively and authoritative investigation into the lives of our ancestors based on the revolution in the field of Bronze Age archaeology which has been taking place in Norfolk and the Fenlands over the last twenty years and in which the author has played a central role      **An Archaeological History of Britain** Jonathan Eaton, 2014-12-12 This authoritative and accessible volume presents an archeological of Britain across millennia from early prehistory to the present The Archaeological History of Britain takes us from the earliest prehistoric archaeology right up to the contemporary archaeology of the present day through the use of key sites Historian Jonathan Eaton uses key sites to illustrate each significant time period along with a narrative of change to accompany the changing archaeological record The wide range of evidence utilized by archaeologists such as artefacts landscape studies historical sources and genetics are emphasized throughout this chronological journey The latest theoretical advances and practical discoveries are also explored making this the most advanced narrative of British archaeology available      *Seahenge* J.F. Penn, 2024-11-25 What was drowned will be drowned again Marine archaeologist Dr Evelyn Price has spent her life uncovering the mysteries of the deep ocean But when a violent storm uncovers an ancient timber circle off the coast of England she faces a discovery that will challenge everything she knows As the tide rises and storm clouds gather Evelyn and her team race against time to decipher the strange symbols on the wooden pillars before the sea comes to claim its own once more Seahenge is a gripping archaeological short story that blends cutting edge science with ancient myth It will leave you questioning what really lies beneath the waves      **The Lost Civilization Enigma** Philip Coppens, 2012-10-22 An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating

examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal *Archaeology Hotspot Great Britain* Donald Henson,2015-03-12 The Archaeology Hotspots series offers reader friendly and engaging narratives of the archaeology in particular countries Written by archaeological experts with a general reader in mind each book in the series focuses on what has been found and by whom what the controversies and scandals have been ongoing projects and how it all fits into a broader view of the history of the country In *Archaeology Hotspot Great Britain* expert Donald Henson first chronicles the deep archaeology of a long settled region including England Wales and Scotland then explores both the famously ancient finds cave art at Creswell Crags Stonehenge and more recent and iconic historic sites and monuments such as Westminster Abbey and Ironbridge Gorge He profiles the often larger than life personalities and the previously marginalized women who have contributed to British archaeology the controversies influencing how we see the past are also highlighted Henson considers London s position in the antiquities trade and the safeguarding of heritage sites As a whole the book tells a fascinating story of Great Britain s history culture national heritage and ongoing role as a hotspot of archaeology *The Rise of Bronze Age Society* Kristian Kristiansen,Thomas B.

Warfare, Raiding and Defence in Early Medieval Britain Erik Grigg,2018-05-21 Warfare Raiding and Defence in early medieval Britain is an examination of warfare in the period AD400 850 often called the Dark Ages which is roughly the period between the end of Roman rule and the arrival of large Viking armies It uses written sources archaeological evidence and surviving features in the landscape to analyse the nature of warfare in those days paying particular attention to the large defensive earthworks typical of the period Luckily these earthworks survive long after the warriors have turned to dust their

locations in the landscape are mute witness to the nature of early medieval warfare This period helped forge and mould the nations of modern Britain This book shows that raiding was the driving force behind the political cultural and linguistic changes that affected post Roman Britain and provides a picture of how raids and counter raiding measures worked in practice Includes 70 colour illustrations *Seahenge* Francis Pryor,2002 A lively and authoritative investigation into the lives of our ancestors based on the revolution in the field of Bronze Age archaeology which has been taking place in Norfolk and the Fenlands over the last twenty years and in which the author has played a central role One of the most haunting and enigmatic archaeological discoveries of recent times was the uncovering in 1998 at low tide of the so called Seahenge off the north coast of Norfolk This circle of wooden planks set vertically in the sand with a large inverted tree trunk in the middle likened to a ghostly hand reaching up from the underworld has now been dated back to around 2020 BC The timbers are currently and controversially in the author s safekeeping at Flag Fen Francis Pryor and his wife an expert in ancient wood working and analysis have been at the centre of Bronze Age fieldwork for nearly 30 years piecing together the way of life of Bronze Age people their settlement of the landscape their religion and rituals The famous wetland sites of the East Anglian Fens have preserved ten times the information of their dryland counterparts like Stonehenge and Avebury in the form of pollen leaves wood hair skin and fibre found pickled in mud and peat Seahenge demonstrates how much Western civilisation owes to the prehistoric societies that existed in Europe in the last four millennia BC Bronze Age Worlds Robert Johnston,2020-10-26 Bronze Age Worlds brings a new way of thinking about kinship to the task of explaining the formation of social life in Bronze Age Britain and Ireland Britain and Ireland s diverse landscapes and societies experienced varied and profound transformations during the twenty fifth to eighth centuries BC People s lives were shaped by migrations changing beliefs about death making and thinking with metals and living in houses and field systems This book offers accounts of how these processes emerged from social life from events places and landscapes informed by a novel theory of kinship Kinship was a rich and inventive sphere of culture that incorporated biological relations but was not determined by them Kinship formed personhood and collective belonging and associated people with nonhuman beings things and places The differences in kinship and kinwork across Ireland and Britain brought textures to social life and the formation of Bronze Age worlds Bronze Age Worlds offers new perspectives to archaeologists and anthropologists interested in the place of kinship in Bronze Age societies and cultural development **A History of Norfolk in 100 Places** David Robertson,Peter Wade-Martins,Susanna Wade-Martins,2022-01-06 Norfolk has a wealth of important archaeological sites historic buildings and landscapes This guide is the first to use them to tell the county s rich history Starting with real footprints of people who lived here nearly 1 million years ago A History of Norfolk in 100 Places will take you on a chronological journey through prehistoric monuments Roman forts medieval churches and Nelson s Monument right up to twentieth century defensive sites With detailed entries illustrated by aerial photographs and ground level shots here you will find a reliable guide to historic
