necromancer's fury Damian Vesik is no hero At least not according to the magical community that turns a blind eye to his battles against evil So he chalks it up as one more thankless mission when he's forced to stop his vampire sister from murdering her ex's entire bridal party Infiltrating the ceremony to protect the innocent Damian uncovers something more sinister than a massacre With the help of his berserker fairy friend he'll need to prevent an unholy alliance between ancient demons and an undead horde before one hell of an afterparty dooms the world Dedicated to the memory of William Dufri This collection includes all 8 of the Vesik novels recorded by William Dufri At the end of this set you'll find thoughts from Eric R. Asher and an interview with Erin Moon narrator of The Books of the Dead Titles included Days Gone Bad Wolves and the River of Stone Winter's Demon This Broken World Destroyer Rising Rattle the Bones Witch Queen's War Forgotten Ghosts

Gaia's Web Karen Bakker, 2024-04-16 A riveting exploration of one of the most important dilemmas of our time will digital technology accelerate environmental degradation or could it play a role in ecological regeneration At the uncanny edge of the scientific frontier Gaia's Web explores the promise and pitfalls the Digital Age holds for the future of our planet Instead of the Internet of Things environmental scientist and tech entrepreneur Karen Bakker asks why not consider the Internet of Living Things At the surprising and inspiring confluence of our digital and ecological futures Bakker explores how the tools of the Digital Age could be mobilized to address our most pressing environmental challenges from climate change to biodiversity loss Interspersed with ten elegiac enigmatic parables each of which is based on an existing technology Gaia's Web evokes the conundrums we face as the World Wide Web intertwines with the Web of Life A new generation of innovators is deploying digital technology to come to the aid of the planet using spy satellites to track down environmental criminals inviting animals to the Metaverse and biohacking Frankenstein-like biobots as environmental sentinels But will they end up doing more harm than good In an engaging take on conservation technology Bakker looks at the digital tech applications to environmental issues from predatory harvesting of environmental data to human bycatch and eco surveillance capitalism If we address these issues and mobilize digitally mediated forms of citizen science she argues digital tech could help reverse environmental harms and advance environmental sustainability And in the process Big Tech might be transformed for the better With its uniquely broad scope combining insights from computer science ecology engineering environmental science and environmental law Gaia's Web introduces profoundly novel ways of addressing our most pressing environmental challenges mitigating climate change protecting endangered species and creating new possibilities for ecological justice by empowering nonhumans to participate in environmental regulation Gaia's Body Tyler Volk, 2012-12-06 If the biosphere

really is a single coherent system then it must have something like a physiology It must have systems and processes that perform living functions In Gaia's Body Tyler Volk describes the environment that enables the biosphere to exist various ways

of looking at its anatomy and physiology the major biogeographical regions such as rainforests deserts and tundra the major substances the biosphere is made of and the chemical cycles that keep it in balance He then looks at the question of whether there are any long term trends in the earth s evolution and examines the role of humanity in Gaia s past and future Both adherents and sceptics have often been concerned that Gaia theory contains too much goddess and too few verifiable hypotheses This is the book that describes for scientists students and lay readers alike the theory s firm basis in science
