history topography people economy and politics of the Democratic Republic of Vietnam DRV the Republic of Vietnam RVN Cambodia and Laos That the war was controversial is an understatement as is the notion that the war can be understood from any one perspective One way of understanding the Vietnam War is by marking its time with turning points both major and minor that involved events or decisions that helped to influence its course in the years to follow By examining a few of these turning points an organizational framework takes shape that makes understanding the war more possible Historical Dictionary of the War in Vietnam emphasizes the international nature of the war as well as provide a greater understanding of the long scope of the conflict The major events associated with the war will serve as the foundation of the book while additional entries will explore the military diplomatic political social and cultural events that made the war unique While military subjects will be fully explored there will be greater attention to other aspects of the war All of this is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about the Vietnam War Special Operations and Strategy James D. Kiras, 2006-07-29 This book argues that the root of effective special operations lies in understanding the relationship between moral and material attrition this is achieved by examining both strategic theory and real life case studies **Operation SEALORDS: A Study In The Effectiveness Of The Allied Naval Campaign Of Interdiction** LCDR Eugene F. Paluso USN, 2015-11-06 The United States Navy involvement in the Vietnam War prior to 1964 was primarily blue water operations In 1964 the Vietnam Delta Infiltration Study Group was tasked to conduct a comprehensive study of the problem of enemy infiltration of men and supplies into South Vietnam Mekong Delta region across the Cambodia and Laos borders The findings of the group were published in the Bucklew Report and concluded that the border infiltration problem was significant and needed to be stopped in order to ensure victory in the Vietnam War The recommendations were for the U S to develop an extensive riverine operations capability to assist the South Vietnamese military in conducting counter insurgency operations to stop the infiltration problem The U S Navy moved from deep blue water operations to near shore blue water operations with the Operation MARKET TIME patrols which encompassed larger seagoing craft patrolling the coast to forty miles out to sea These operations led to the first brown water operations during Operation GAME WARDEN which patrolled the major river systems in the Mekong Delta region in order to interdict enemy movements along the rivers Soon these patrols revealed the need to ground troops to control the riverbanks in order for the patrols to be effective The Tet offensive of 1968 revealed that the MARKET TIME and GAME WARDEN patrols were not totally containing the infiltration problem Operation SEALORDS established patrol barriers that were designed specifically to stop the influx of men and supplies crossing the Cambodian border and sustaining enemy forces operating in the Mekong Delta and Saigon areas SEALORDS barriers were systematically set up to take control of the Mekong Delta region and deny the enemy the freedom of movement enjoyed for years prior *US Navy Special Warfare Units in Korea and Vietnam*
