Images at Work David Morgan, 2018-01-02 Images can be studied in many ways as symbols displays of artistic genius adjuncts to texts or naturally occurring phenomena like reflections and dreams Each of these approaches is justified by the nature of the image in question as well as the way viewers engage with it But images are often something more when they perform in ways that exhibit a capacity to act independent of human will Images come alive they move us to action calm us reveal the power of the divine change the world around us In these instances we need an alternative model for exploring what is at work one that recognizes the presence of images as objects that act on us Building on his previous innovative work in visual and religious studies David Morgan creates a new framework for understanding how the human mind can be enchanted by images in Images at Work In carefully crafted arguments Morgan proposes that images are special kinds of objects fashioned and recognized by human beings for their capacity to engage us From there he demonstrates that enchantment as described is not a violation of cosmic order but a very natural way that the mind animates the world around it His groundbreaking study outlines the deeply embodied process by which humans create culture by endowing places things and images with power and agency These various agents human and non human material geographic and spiritual become nodes in the web of relationships thus giving meaning to images and to human life Marrying network theory with cutting edge work in visual studies and connecting the visual and bodily technologies employed by the ancient Greeks and Romans to secular icons like Che Guevara Abraham Lincoln and Mao Images at Work will be transformative for those curious about why images seem to have a power of us in ways we can t always describe

Enchantment's Odds & Ends Ken Evans, 2021-07-26 To be Enchanted at one time meant to be carried away from one s hum drum existence to something or somewhere magical perhaps even spiritual at least always more than
