## **Search For Yesterday A Critical Examination Of The Evidence For Reincarnation:**

*The Search for Yesterday* D. Scott Rogo, 1985-01-01 Closely examines the evidence offered in support of reincarnation suggests alternate explanations and discusses the relationship between memories of past lives and hypnosis déjà vu and altered states of consciousness

**The Big Book of Reincarnation** Roy Stemman, 2012-05-01 IS DEATH THE FINAL CHAPTER In *The Big Book of Reincarnation* Roy Stemman attempts to answer one of the big questions of existence Is death the end Or is it merely the end of a chapter in the book of existence A self described skeptical believer Stemman uses his skills as a professional journalist to perform an in depth exploration of reincarnation Using case studies anecdotes and physical evidence from the best documented cases from around the world Stemman shines a bright light on this subject inviting readers to decide for themselves on the basis of facts rather than on the basis of hearsay speculation and superstition Stemman finds fascinating examples of evidence of reincarnation in the nightmares of a Louisiana bayou boy the past life recall of a renowned neurosurgeon the research of a highly respected university professor and the unique system of governance in the mountains of Tibet to name just a few He examines the lives of those affected by reincarnation such as children who can actually remember their previous lives Instead of shying away from the skeptics Stemman evaluates their leading theories and compares them to the findings that he has accumulated throughout his global research *The Big Book of Reincarnation* is thorough well researched engaging and the most comprehensive book ever published on this fascinating subject

Reincarnation in America Lee Irwin, 2017-07-31 *Reincarnation in America* An Esoteric History surveys the complex history of reincarnation theories across multiple fields of discourse in a pre American context ranging from early Greek traditions to Medieval Christian theories Renaissance esotericism and European Kabbalah all of which had adherents that brought those theories to America Rebirth theories are shown in all these groups to be highly complex and often disjunctive with mainstream religions even though members of conventional religions frequently affirm the possibility of rebirth As a history of an idea reincarnation theory is a current vital belief pattern that cuts across a wide spectrum of social cultural and scientific domains in a long complex history not reducible to any specific religious or theoretical explanation This book is cross disciplinary and multicultural linking religious studies perspectives with science based research it draws upon many distinct disciplines and avoids reduction of reincarnation to any specific theory The underlying thesis is to demonstrate the complexity of reincarnation theories what is unique is the historical overview and the gradual shift away from religious theories of rebirth to new theories that are therapeutic and trans traditional

**Best Evidence** Michael Schmecker, 2002-03-27 a dazzling journey into one of the most important areas of science that has ever existed Dr Larry Dossey MD New York Times best selling author of *Reinventing Medicine* *Best Evidence* is indeed one if not the best itself of the major books explaining and offering proof that psi phenomena are here to stay whether we like it or not Fred Alan Wolf Ph D physicist and National Book Award winning author of *Mind Into Matter* Taking the Quantum Leap My highest

recommendation not just one but a half dozen astounding stories any one of which can change the way we think about the nature of reality Dean Radin Ph D author of The Conscious Universe The Scientific Truth of Psychic Phenomena an important book Edgar Mitchell Apollo 14 astronaut and author of Way of the Explorer Psychic Exploration For skeptics and cautious believers alike a splendid introduction to impossible phenomena that refuse to disappear Stanley Krippner Ph D Co Editor Varieties of Anomalous Experience Examining the Scientific Evidence Hard line skeptics won't be pleased but Schmicker has done his homework an excellent survey of the strongest evidence Marcello Truzzi Ph D Center for Scientific Anomalies Research

**The Search for Yesterday** D. Scott Rogo, 1985 The amount of evidence in favor of reincarnation is massive apparently overwhelming But is it after all incontrovertible In The Search for Yesterday famed author researcher D Scott Rogo subjects the evidence for rebirth to minute and objective examination And much of it he finds cannot stand up under such scrutiny But what about the remainder those incredible thoroughly documented unimpeachably witnessed cases that seem to defy any normal explanation Surely they establish the reality of reincarnation beyond any reasonable doubt Or do they In this incisive book Rogo offers a whole new theory about the meaning of these cases something akin to but more complex than simple reincarnation Among many other questions that this groundbreaking book examines are What role may inherited or genetic memory play in reincarnation cases How is it possible for two children to recall the same past life How are past life memories related to altered states of consciousness hypnosis and the experience of d j v u If you are seriously interested in any aspect of the uncanny world of psychic phenomena you will want to read this book for it may well become one of the classics in the field back cover

[The Myth of an Afterlife](#) Michael Martin, Keith Augustine, 2015-03-12 Because every single one of us will die most of us would like to know what if anything awaits us afterward not to mention the fate of lost loved ones Given the nearly universal vested interest in deciding this question in favor of an afterlife it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance But the evidence of our senses and the ever gaining strength of scientific evidence strongly suggest otherwise In The Myth of an Afterlife The Case against Life after Death Michael Martin and Keith Augustine collect a series of contributions that redress this imbalance in the literature by providing a strong comprehensive and up to date casebook of the chief arguments against an afterlife Divided into four separate sections this collection opens with a broad overview of the issues as contributors consider the strongest evidence of whether or not we survive death in particular the biological basis of all mental states and their grounding in brain activity that ceases to function at death Next contributors consider a host of conceptual and empirical difficulties that confront the various ways of surviving death from bodiless minds to bodily resurrection to any form of posthumous survival Then essayists turn to internal inconsistencies between traditional theological conceptions of an afterlife heaven hell karmic rebirth and widely held ethical principles central to the belief systems supporting those notions In the final section authors offer critical evaluations of the main types of evidence for an afterlife Fully interdisciplinary The Myth of

an Afterlife The Case against Life after Death brings together a variety of fields of research to make that case including cognitive neuroscience philosophy of mind personal identity philosophy of religion moral philosophy psychical research and anomalistic psychology As the definitive casebook of arguments against life after death this collection is required reading for any instructor researcher and student of philosophy religious studies or theology It issues to raise provocative issues new to readers regardless of background from those who believe fervently in the reality of an afterlife to those who do not or are undecided on the matter

**Signs of Reincarnation** James G. Matlock, 2019-06-15 Signs of Reincarnation provides the first comprehensive look at the belief in reincarnation and the evidence for past lives from historical records anthropological studies and contemporary research Matlock discusses various ways the evidence may be interpreted and shows that although reincarnation entails a rejection of the materialist notion that consciousness is generated by the brain it does not require the acceptance of any radically new concepts or the abandonment of well established findings in mainstream psychology or biology This book offers students scholars and anyone interested in the possibility of reincarnation an essential grounding in beliefs cases and theory while opening doors for future research into the extension of consciousness beyond our present lives

The Paranormal Eric Carlton, 2017-11-22 This title was first published in 2000 A manifestation of mass hysteria a compensation for physical or emotional deprivation or an alternative to religion What is the function of the paranormal in society This question and its many possible answers are the subject of this scholarly study of our enduring fascination with experiences for which science provides no ready explanations From the ancient cultures of Mesopotamia and Egypt to the present day Eric Carlton surveys the development of ideas and research associated with the paranormal culminating as it does today in the recognized academic status accorded to parapsychology With a critical yet open mind Carlton explores issues associated with the study of the paranormal such as witchcraft beliefs near death experiences and the UFO phenomenon Case studies are employed to illustrate and illuminate certain examples and theories This thought provoking book concludes that the paranormal and our study of it provides a multi faceted vehicle for humanity's quest to find meaning in life

Reincarnation Joel Bjorling, 2013-08-21 First Published in 1996 You may have lived before As a matter of fact you may have experienced countless lifetimes This statement constitutes the basic premise of reincarnation which is also called transmigration and metempsychosis This volume explores the origins and development of the belief of reincarnation

Kardec's Spiritism Emma Inc. Bragdon, 2012-11 Especially of interest to those involved with healing and healthcare The first book to describe contemporary spiritual healing centers in Brazil including a psychiatric hospital where spiritual healers collaborate with conventionally trained healthcare professionals There are more than 12 000 of these centers in Brazil 20 40 million Brazilians use this resource for spiritual growth healing and to maintain wellness These Centers welcome people of all religions and cultures offering effective forms of healing as a free service The introduction to the philosophy of Spiritism is presented in a clear easy to understand manner The description of the methods for healing used over more than 150 years

demonstrate that Brazil has developed an effective model of integrative health care The author spent half of each year 2001 2012 in Brazil studying these centers and hospitals She is a psychologist teacher prolific author and pioneer in the area of healing and spiritual awakening She suggests that importing components of Brazil s Spiritist Centers could help us improve our ailing healthcare system *The Mysticism of Ordinary and Extraordinary Experience* Harry L. Serio, 2021-04-12 We are so much more than we appear to be The why of our existence is far more complex than the how of our being Mysticism probes the hidden nature of who we are why we are and our relationship to our Creator We catch glimpses of this not only in the ordinary experiences of life but also through extraordinary and unusual encounters with mystery Mysticism is the awareness of our reality **Consciousness Unbound** Edward F. Kelly, Paul Marshall, 2021-03-16 Building on the groundbreaking research of Irreducible Mind and Beyond Physicalism Edward Kelly and Paul Marshall gather a cohort of leading scholars to consider the significance of extraordinary experiences for our understanding of reality Currently emerging as a middle ground between warring fundamentalisms of religion and science an expanded science based understanding of nature finally accommodates empirical realities of spiritual sorts while also rejecting rationally untenable overbeliefs The vision sketched here provides an antidote to the prevailing postmodern disenchantment of the world and demeaning of human possibilities It not only more accurately and fully reflects our human condition but engenders hope and encourages ego surpassing forms of human flourishing It offers reasons for us to believe that freedom is real that our human choices matter and that we have barely scratched the surface of our human potentials It also addresses the urgent need for a greater sense of worldwide community and interdependence a sustainable ethos by demonstrating that under the surface we and the world are much more extensively interconnected than previously recognized **The Search for Yesterday** D. Rogo, 2005-12 In this thorough and balanced account researcher D Scott Rogo offers a critical and scientific examination of reincarnation He considers the various forms of past life recall dreams waking visions deja vu the most impressive case studies and the history of research into reincarnation He then concludes the book with an examination of explanatory models that can account for the phenomenon Rogo concludes that some people can indeed tap into the memories of other people cultures and places long removed in time but proposes that the evidence might be pointing to something more complex than our traditional views of reincarnation The Search for Yesterday is probably the single best book critiquing the research on reincarnation George Hansen The Trickster and the Paranormal D Scott Rogo 1950 1990 was one of the most widely respected writer journalists covering the field of parapsychology as well as an active scientific investigator Educated at the University of Cincinnati and San Fernando Valley State College Rogo held a unique position in parapsychology and made many contributions to the field that deserve recognition He served as a visiting researcher at the Psychical Research Foundation then in Durham North Carolina and at the Division of Parapsychology and Psychophysics of the Maimonides Medical Center in Brooklyn New York He published papers on ESP in referred parapsychological journals and was active in

field investigations of hauntings and poltergeists Rogo was also a leading authority on the history of psychical research the breadth of his historical knowledge of the field was unsurpassed Over the course of more than two dozen published books Rogo sought to broaden the range of topics worthy of paranormal research Probing Parapsychology Grant R. Shafer,2023-05-16 Parapsychology is a science made controversial by its subjects extrasensory perception psychokinesis mind over matter and disembodied minds which imply life after death Moreover these parapsychological phenomena called psi challenge physicalism the philosophy that everything can be completely understood in terms of physics This book is a snapshot of the parapsychological field with essays written by authors of diverse academic backgrounds and experiences Essays examine parapsychological phenomena from prehistory through the founding of the science by intellectuals distressed by physicalism to the postmodern present It includes both experimental and theoretical evaluations of the phenomena Parapsychology is a science which may overturn the philosophy which has dominated science since Newton and may inspire curious readers who are disheartened by the consequent denial of the spirit 700 Conscientiology Experiments Waldo Vieira,2018-08-22 A reference work on conscientiology this treatise with more than 5 000 entries in the bibliography first published in Portuguese in 1994 presents the reader with the bases of the neuroscience conscientiology The author proposes 300 tests for self application dealing with topics of great relevance such as assistance the theory of thosene thought sentiment and energy and the theories of inversion and existential recycling among others The work presents conscientiology as the science applied to the study of consciousness ego personality in an integral approach with all its vehicles of manifestation bodies previous existences and attributes The content being deepened and presented in a theoretical and practical way so a reader understands the importance of this knowledge to their life The science of conscientiology utilizes the best of the main lines of human knowledge common sense religion philosophy political ideology and conventional science and is based on multidimensional self experience having consciousness as both the instrument and object of research

Journal of the Society for Psychical Research Society for Psychical Research (Great Britain),2006 Remarkable Healings Shakuntala Modi,1998-04-01 Psychiatry remains an emerging discipline Many people suffer from ailments that have no apparent cause no obvious cure Quite by accident while using hypnotherapy Dr Modi discovered that pastlife regression can be a beneficial treatment Many of these patients under hypnosis claimed to have spirits attached to their bodies and energy fields creating psychological and physical problems Based on years of experience Dr Modi describes techniques that release these spirits revealing how patients can sometimes recover within a few sessions While most doctors would agree that emotional states affect our health few would give credence to spiritual influences In this truly groundbreaking book Dr Modi presents evidence that something beyond the physical affects the health of many people and urges medical scientists to objectively assess this revolutionary approach to mental and often physical illness Pioneers have the courage to put aside the status quo and evaluate what the evidence shows even if it defies the prevailing logic of the time Both physicians and the

general public should explore the pioneering work of Dr Modiwork which no doubt has produced many remarkable healings

Leaving the Body D. Scott Rogo, 2008-06-30 How to induce a safe controlled out of body experience using physical and mental methods Astral projection the ability to leave the body at will is a phenomenon that has long fascinated both the scientific world and the general public If you have been curious about this strange power and are now ready to take your curiosity one step further here is a complete guide to eight genuine methods that have been proven to induce out of body experiences In plain straightforward language this realistic guide explains the techniques and potential applications of astral projection through dynamic concentration progressive muscular relaxation dietary control guided imagery and others

**The Journal of the American Society for Psychical Research** American Society for Psychical Research, 1997 List of members in v 1 6 12 *An Introduction to Parapsychology, 5th ed.* Harvey J. Irwin, Caroline A. Watt, 2007-03-07 This is a thoroughly updated and revised edition of our highly acclaimed university textbook on the science of parapsychology The objective of this book is to provide an introductory survey of parapsychologists efforts to explore the authenticity and bases of anomalous apparently paranormal phenomena It outlines the origins of parapsychological research and critically reviews investigations of extrasensory perception psychokinesis poltergeist phenomena near death and out of body experiences and the evaluation of parapsychology as a scientific enterprise Instructors considering this book for use in a course may request an examination copy here

## **Search For Yesterday A Critical Examination Of The Evidence For Reincarnation** Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the energy of words has are more evident than ever. They have the capability to inspire, provoke, and ignite change. Such is the essence of the book **Search For Yesterday A Critical Examination Of The Evidence For Reincarnation**, a literary masterpiece that delves deep into the significance of words and their impact on our lives. Published by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book is key themes, examine its writing style, and analyze its overall impact on readers.

### **Search For Yesterday A Critical Examination Of The Evidence For Reincarnation Introduction**

In today's digital age, the availability of Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Search For Yesterday A Critical Examination Of The Evidence For Reincarnation versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or

referencing. When it comes to accessing Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books and manuals for download and embark on your journey of knowledge?

### **FAQs About Search For Yesterday A Critical Examination Of The Evidence For Reincarnation Books**

1. Where can I buy Search For Yesterday A Critical Examination Of The Evidence For Reincarnation books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or

software like Apple Books, Kindle, and Google Play Books.
