

Mark A. Torgerson

Searching for Sacred Space John Ander Runkle, 2002 Discusses important questions about the relationship between sacred spaces and worship Spiritus Loci Bert Daelemans, S.J., 2015-01-08 In Spiritus Loci Bert Daelemans who graduated as an architect and a theologian provides an interdisciplinary method for the theological assessment of church architecture Rather than a theory this method is based on case studies of contemporary buildings 1995 2015 which are often criticized for lacking theological depth In a threefold method the author brings to light the ways in which architecture can be theology or theotopy by focusing on topoi places rather than logoi words Churches reveal our relationship with God by engaging our body mind and community This method proves relevant not only for the way we perceive these buildings but also for the way we use them especially in our prophetic engagement for a better world An Architecture of Immanence Mark A. Torgerson, 2007-01-22 Torgerson begins by discussing God's transcendence and immanence and showing how church architecture has traditionally interpreted these key concepts He then traces the theological roots of immanence s priority from liberal theology and liturgical innovation to modern architecture Next Torgerson illustrates this new architecture of immanence through particular practitioners focusing especially on the work of theologically savvy architect Edward Anders S vik Finally he addresses the future of church architecture as congregations are buffeted by the twin forces of liturgical change and postmodernism Art and Architecture for Congregational Worship Richard S. Vosko, 2019-09-26 A deep strain of tribal politics is dividing societies around the globe Organized religions are also coping with scandals disappointments and polarizing ideologies The history of Christianity reveals that such frictions deeply wound the church Fr Richard S Vosko recognizes that liturgical buildings are metaphorical expressions of the people of God He proposes in a relational way that when all physical and psychological boundaries in a place of worship are removed people will discover a common ground Building on theological foundations and design principles Vosko envisions what an egalitarian servant church can look like In a bold but thoughtful manner he presents progressive insights into the fields of church art and Theology in Stone Richard Kieckhefer, 2008-07-24 Thinking about church architecture has come to an architecture impasse Reformers and traditionalists are talking past each other Statements from both sides are often strident and dogmatic In Theology in Stone Richard Kieckhefer seeks to help both sides move beyond the standoff toward a fruitful conversation about houses of worship Drawing on a wide range of historical examples with an eye to their contemporary relevance he offers new ideas about the meanings and uses of church architecture Approaching the Threshold of Mystery Joris Geldhof, Daniel Minch, Trevor Maine, 2015-09-10 Approaching the Threshold of Mystery brings two recently estranged strands of theology back together to explore the same liturgical worlds and to chart theological spaces The editors have assembled a formidable group of scholars from systematic and liturgical theology with the express purpose of examining the mystery of the liturgy with both expert perspectives in mind The result is thirteen essays that return to a more synoptic theology seeing

speculative and liturgical approaches as united together for a common purpose and ultimately approaching the same mysterious sacred reality In today s fragmented world this approach is sorely needed and although many postmodern authors point out the need for healing this division this volume actually attempts to bridge the disciplinary divide by placing specialists within the same prayerful space oriented towards something greater than what is merely enacted in human words and deeds Sanctioning Modernism Timothy Parker, Monica Penick, Vladimir Kulic, 2014-06-01 In the decades following World War II modern architecture spread around the globe alongside increased modernization urbanization and postwar reconstruction and it eventually won widespread acceptance But as the limitations of conventional conceptions of modernism became apparent modern architecture has come under increasing criticism In this collection of essays experienced and emerging scholars take a fresh look at postwar modern architecture by asking what it meant to be modern what role modern architecture played in constructing modern identities and who sanctioned or was sanctioned by modernism in architecture This volume presents focused case studies of modern architecture in three realms political religious and domestic that address our very essence as human beings Several essays explore developments in Czechoslovakia Romania and Yugoslavia and document a modernist design culture that crossed political barriers such as the Iron Curtain more readily than previously imagined Other essays investigate various efforts to reconcile the concerns of modernist architects with the traditions of the Roman Catholic Church and other Christian institutions And a final group of essays looks at postwar homebuilding in the United States and demonstrates how malleable and contested the image of the American home was in the mid twentieth century These inquiries show the limits of canonical views of modern architecture and reveal instead how civic institutions ecclesiastical traditions individual consumers and others sought to sanction the forms and ideas of modern architecture in the service of their respective claims or desires to be modern God's House is Our House Richard S. Vosko, 2006 The liturgical reforms that have guided congregations over the last few decades have transformed what different denominations know about themselves and their worship Worshipers are no longer spectators but active participants in the ritual acts that once were the possession of the clergy As the liturgy is modified church buildings are altered How does all such change affect the architectural style of church buildings Vosko provides a foundation for building or renovating a place of worship and presents a thorough checklist for spaces art furnishings and appointments He discusses many concerns and offers practical advice He also presents issues that need further consideration in every project BOOK JACKET House Churches in Post-Communist Europe Randy Hacker, 2023-02-10 This is an exploration of house churches especially in Poland The book begins with a review of literature about the global house church movement and continues with an article on the early Christian transition from house churches to purpose built buildings for churches Next is an article regarding the concept of sacred space in relation to house churches The first half concludes with a chapter on methodology of research for a qualitative interview approach to studying house churches The thesis then presents a theological method for using the

qualitative interviews to develop ecclesiology Sixteen interviews from thirteen house churches are presented The thesis continues the theological method by attempting to answer the question why is it going on and presents a thematic analysis from the qualitative interviews that includes input from sociological research done in Poland The thesis concludes by using scriptural and academic sources in conversation with house church interviews from the interviews and global house church literature to present four primary conclusions in a practical prophetic ecclesiology American Sanctuary Louis P. Nelson, 2006 This volume examines a diverse set of spaces and buildings seen through the lens of popular practice and belief to shed light on the complexities of sacred space in America Contributors explore how dedication sermons document shifting understandings of the meetinghouse in early 19th century Connecticut the changes in evangelical church architecture during the same century and what that tells us about evangelical religious life the impact of contemporary issues on Catholic church architecture the impact of globalization on the construction of traditional sacred spaces the urban practice of Jewish space nature worship and Central Park in New York the mezuzah and domestic sacred space and finally the spiritual aspects of African American yard art 'Wonderful and Confessedly Strange' Bruce Kaye, 2006-12-31 Concerned with vital issues of ecclesiology within Australian Anglicanism this book is both darling and controversial It confronts the undiscussable and in doing so brings together people who write from various contexts within the Church Its diversity of style and attitude reflects the living richness and complexity of Australian Anglicanism today and also the problems and challenges The book in four parts sets out the issues of methodology looks at influences of the Australian Anglican inheritance examines aspects of the institutional life of the Church and finally focuses on the social and political contexts within which ecclesiology is shaped and Christian Worship Michael N. Jagessar, Stephen Burns, 2014-09-19 Postcolonialism has greatly influenced created biblical and theological criticism but has not yet entered the realm of church worship and practice Christian Worship brings the insights of postcolonial thinking to the rituals of religious life The book critically analyses liturgical theology through the lens of postcolonialism and explores the challenges of appropriating postcolonial perspectives in Christian worship Ranging from liturgical texts and song to Scripture lectionaries festivals and sacraments this volume offers a fresh approach to liturgy that will be of interest to students of theology seminarians and church practitioners Asian Christian Theology Timoteo D. Gener, Stephen T. Pardue, 2019-07-31 Asian Christian Theology provides a survey of contextually reflective robustly evangelical theology for students to engage with the core doctrines of Christianity and their outworking in different cultures across Asia The contributors of the chapters come from all corners of Asia to systematically examine traditional doctrinal themes and contemporary concerns for the Asian church Ideal for use as a companion textbook in Asian seminaries and institutions this book will also provide excellent further reading for those outside of Asia seeking global theological perspectives and for those in contexts of significant Asian diaspora Many excellent books surveying theology exist but this book is a major step forward for students and scholars seeking to understand the dynamic environment of evangelical

theology in Asia **The Art of Disruption** Paul Fromberg, 2021-04-16 As the Church considers prayer book revisions discover new ways of bringing prayer to life In many liturgical churches it seems that the prayer book confines more than frees the transformational potential of worship Drawing on his experience at St Gregory of Nyssa Paul Fromberg encourages us to question the assumption that there is a right way and a wrong way of using prayer books Instead he encourages readers to pay attention to doing worship well and engaging worshippers desire to be transformed This book is for those who plan and lead worship as well as those who are curious about the ways that worship is transformative in people s experience Additionally fans of St Gregory of Nyssa Episcopal Church will discover more about the ways in which this ground breaking congregation has engaged the work of liturgical disruption and trusted in the transformative potential of the liturgy for more than forty years The Place of God at the Bookends of the Bible David W. Larsen, 2023-10-09 What if everything in the Bible has a larger outer context than is usually accounted for Missional and biblical theologies suggest that the Bible presents a grand story like a play with multiple acts The acts typically include creation fall redemption and finally restoration But what if the whole story itself occurs in another larger setting occurring within a mission running in the background throughout the whole Bible How might this aid our research reading and application And why is this being proposed now This book explores these questions The larger context is the production of the place of God a home and homeland wherein God with his people dwell on earth Since place is underdeveloped in biblical studies the book presents a new method for interpreting place Then the book lays out the case that a grand mission to produce the place of God becomes the outer context for the whole Bible Finally the book defends this proposal with an in depth placial commentary of the bookends of the Bible since these bookends provide keys to unlock this message thereby inviting further study on the rest of the Bible and on the implications for this transformative perspective The Art of Tentmaking Stephen Cottrell, 2012 An illustrious line up of contributors share their insights on essential aspects of liturgical renewal Writing in honour of worship pioneer Richard Giles they consider participation simplicity inclusivity sacraments and more A key text for all responsible for shaping Christian SCM Studyguide: Liturgy, 2nd Edition Stephen Burns, 2018-09-07 The SCM Studyguide Liturgy 2nd Edition is assembly an introduction to liturgy that considers the basic building blocks needed to grasp the subject area It outlines the essential shape and content of Christian worship and explores a range of liturgical dynamics of which both students of liturgy and leaders of liturgy need to be aware This 2nd edition of the popular Studyguide is fully revised updated and expanded The book takes account of new developments in scholarship engages with new contexts for liturgical celebration notably fresh expressions as part of a mixed economy of church encompasses recent revisions in liturgy and seeks to broaden the engagement beyond the British context to consider the wider global context A Sense of the Sacred R.
