V. Willie, Richard J. Reddick, 2010-02-16 Charles Willie and Richard Reddick's *A New Look at Black Families* has introduced thousands of students to the intricacies of the Black family in American society since its publication in 1976. Using a case study approach, Willie and Reddick show the varieties of the Black family experience and how those experiences vary by socioeconomic status. In addition to examining families of low income working and middle classes, the authors also look to the family experiences of highly successful African Americans to try to identify the elements of the family environment leading to success. The authors puncture the myth of the Black matriarchy prevalent in the popular imagination and they explore a variety of family configurations including a family with same gender parents. The sixth edition has been reorganized and updated throughout. The new Part III\_Cases Against and for Black Men and Women\_unites two chapters from previous editions into a cohesive discussion of stereotypes and misunderstandings from both scholars and the mass media. Also a new chapter on the Obama family offers support for cross gender and cross racial mentoring and it demonstrates the value of extended family relations.
