The Seasons Luke Fischer, David Macauley, 2021-07-01 Although the seasons have been a perennial theme in literature and art their significance for philosophy and environmental theory has remained largely unexplored This pioneering book demonstrates the ways in which inquiry into the seasons reveals new and illuminating perspectives for philosophy environmental thought anthropology cultural studies aesthetics poetics and literary criticism The Seasons opens up new avenues for research in these fields and provides a valuable resource for teachers and students of the environmental humanities The innovative essays herein address a wide range of seasonal cultures and geographies from the traditional Western model of the four seasons spring summer fall and winter to the Indigenous seasons of Australia and the Arctic Exemplifying the crucial importance of interdisciplinary research The Seasons makes a compelling case for the relevance of the seasons to our daily lives scientific understanding diverse cultural practices and politics **Encyclopedia of Literary**

Modernism Paul Poplawski, 2003-12-30 Modernism is still widely acknowledged as perhaps the most important and influential artistic and cultural phenomenon of the 20th century Written by expert scholars from around the world and covering hundreds of different topics in a clear incisive and critical manner this reference maps the complex field of modernism in a fresh and original way The principal focus of the book is on English language literary modernism and the period 1890 1939 yet many entries extend beyond those parameters to include important precursors and successors of the movement The book also covers the crucial European and interdisciplinary dimensions of modernism and provides complementary comparative perspectives from countries and regions not usually included in traditional accounts of the subject Entries cite works for further reading and the volume closes with a selected general bibliography **The**

Postcolonial Unconscious Neil Lazarus, 2011-06-30 The Postcolonial Unconscious is a major attempt to reconstruct the whole field of postcolonial studies In this magisterial and at times polemical study Neil Lazarus argues that the key critical concepts that form the very foundation of the field need to be re assessed and questioned Drawing on a vast range of literary sources Lazarus investigates works and authors from Latin America and the Caribbean Africa and the Arab world South Southeast and East Asia to reconsider them from a postcolonial perspective Alongside this he offers bold new readings of some of the most influential figures in the field Fredric Jameson Edward Said and Frantz Fanon A tour de force of postcolonial studies this book will set the agenda for the future probing how the field has come to develop in the directions it has and why and how it can grow further **Memories of the Moderns** Harry Levin, 1982 Harry Levin's *Memories of the Moderns* originally published by New Directions in 1980 is now presented in New Directions Paperbook format This

favorite author's work or see a year's bestsellers at a glance. The Chronology of American Literature is the perfect resource. At once an authoritative reference and an ideal browser's guide, this book outlines the indispensable information in America's rich literary past from major publications to lesser-known gems while also identifying larger trends along the literary timeline. Who wrote the first published book in America? When did Edgar Allan Poe achieve notoriety as a mystery writer? What was Hemingway's breakout title? With more than 8,000 works by 5,000 authors, The Chronology makes it easy to find answers to these questions and more. Authors and their works are grouped within each year by category: fiction and nonfiction, poems, drama, literary criticism, and publishing events. Short, concise entries describe an author's major works for a particular year while placing them within the larger context of that writer's career. The result is a fascinating glimpse into the evolution of some of America's most prominent writers. Perhaps most important, The Chronology offers an invaluable line through our literary past, tying literature to the American experience: war and peace, boom and bust, and reaction to social change. You'll find everything here from Benjamin Franklin's *Experiments and Observations on Electricity* to Davy Crockett's first memoir, from Thoreau's *Civil Disobedience* to Edith Wharton's *Ethan Frome*, from meditations by James Weldon Johnson and James Agee to poetry by Elizabeth Bishop. Also included here are seminal works by authors such as Rachel Carson, Toni Morrison, John Updike, and Arthur Schlesinger Jr. Lavishly illustrated and rounded out with handy bestseller lists throughout the twentieth century, lists of literary awards and prizes, and authors' birth and death dates, *The Chronology of American Literature* belongs on the shelf of every bibliophile and literary enthusiast. It is the essential link to our literary past and present.
