[Advertising and Consumer Culture in Ireland, 1922-1962](#) Stephanie Rains, 2022-08-13 This book explores advertising and consumer culture as key aspects of everyday life and national culture in twentieth century Ireland It makes a particular argument that the presence of anti-materialist rhetoric in some parts of Irish public life after Independence has obscured the existence of a lively consumer culture throughout the

period as evident in the many advertisements which supported Irish newspapers and magazines the jingles broadcast on Irish radio and the neon advertising signs and billboards on Irish streets The book focuses on the development of the advertising industry itself and the sophisticated ways in which it worked to associate consumption with national pride It also considers the advertising of Irish homes and home appliances as an important focus of consumption and the targeting of Irish women as the principal consumers in those homes as well as publicity stunts and advertising in public space and the form and style of commercial broadcasting and sponsored programming from the earliest days of Irish radio It finishes with an examination of the opposite extremes of consumer abundance displayed in the annual Christmas advertising as opposed to the consumer culture response to shortages during World War Two *Understanding the Religions of the World* Will Deming, 2025-03-03

this deeply formative period in the history of American literature In Christmas Past Thomas Ruys Smith brings together a diverse range of voices to showcase the many ways in which Christmas was imagined across the nineteenth century offering images that echo down to the present The introduction that frames the anthology provides a new literary history of Christmas contextualizing the selections and making clear the links both between them and to the wider trajectory of American literature
